 February 17 at 8:02pm

CONSTRUCTION UPDATE: The district recently completed its second round of meetings with building "visioning teams" who discussed facility issues and needs that affect teaching and learning in each school and classroom, as well as possible solutions. Now, the district will host community meetings during which attendees will hear a summary of the results of a specific neighborhood school's visioning meetings and discuss exterior design options, including school entrances and security vestibules. Find more information at <http://www.foresthills.edu/districtNewsArticle.aspx...>

You're invited to a community meeting!
