SECTION I - GENERAL INFORMATION

SCHOOL DAY

The school day for Anderson High School & Turpin High School is 8:00 a.m. to 2:40 p.m.

The school day for Nagel Middle School is 8:30 a.m. to 3:15p.m.

STUDENT RESPONSIBILITIES

The school's rules and procedures are designed to allow students to be educated in a safe and orderly environment. All students are expected to follow staff members' directions and to obey all school rules.

In order to keep parents informed of their child's progress in school, parents will receive information on a regular basis and whenever concerns arise. Many times it will be the responsibility of the student to deliver the information. The school, however, may use the U.S. mail or hand delivery, when appropriate. Parents have the option of receiving communication from the school via email and/or facsimile by filling out the appropriate form available in the school's administrative office. Parents are encouraged to build a two-way link with their child's teachers and support staff by informing the staff of suggestions or concerns that may help their child better accomplish his/her educational goals.

STUDENT WELL-BEING

Student safety is the responsibility of both students and staff. Staff members are familiar with emergency procedures such as evacuation procedures, fire and tornado drills, violent intruder drills, and accident reporting procedures. If a student is aware of any dangerous situation or accident, s/he must notify a staff person immediately. State law requires that all students have an emergency medical authorization completed and signed by a parent or guardian on file in the school office. Students with specific health care needs should deliver written notice about such needs, along with physician documentation, to the school office.

INJURY AND ILLNESS

All injuries must be reported to a teacher or the nurse's office. If the injuries are minor, the student will be treated and may return to class. If medical attention is required, the office will follow the school's emergency procedures and make contact the student's parents. A student who becomes ill during the school day should request permission to go to the nurse's office. An appropriate adult in the office will determine whether the student should remain in school or go home. No student will be released from school without proper parental permission.

ENROLLING

In general, state law requires students to enroll in the school district in which their parent or legal guardian resides. New students under the age of 18 must be enrolled by their parent or legal guardian. When enrolling, parents must provide copies of the following:

[Back to Table of Contents](#)

- A. a birth certificate
- B. court papers allocating parental rights and responsibilities, or custody (if appropriate)
- C. proof of residency (deed, mortgage, property tax bill or rental agreement)
- D. proof of immunizations (must provide within 14 days of enrollment)
- E. Special Education documentation, if applicable (current IEP/ETR/504)

Under certain circumstances, temporary enrollment may be permitted. In such cases, parents will be notified about documentation required to establish permanent enrollment.

Students enrolling from another school must have an official transcript from their previous school in order to have credits transferred. The Guidance/Student Service Center will assist in obtaining the transcript, if not presented at the time of enrollment.

Homeless students who meet the federal definition of homeless may enroll.

In addition, if a new student resides in the district with a grandparent and is the subject of a power of attorney designating the grandparent as the attorney-in-fact or a caretaker authorization affidavit executed by the grandparent that provides the grandparent with authority over the care, physical custody, and control of the child, including the ability to enroll the child in school, consent in all school related matters, and discuss with the district the child's educational progress, the student's grandparent may enroll the child in school on a tuition-free basis. However, in addition to the above-referenced documents that are typically required for enrollment, the grandparent must provide the district with a duly executed and notarized copy of a power of attorney or caretaker authorization affidavit.

A student suspended or expelled by another public school in Ohio may be temporarily denied admission to the district's schools during the period of suspension or expulsion even if that student would otherwise be entitled to attend school in the district. Likewise, a student expelled or otherwise removed for disciplinary purposes from a public school in another state and the period of expulsion or removal has not expired may be temporarily denied admission to the district's schools during the period of expulsion or removal or until the expiration of the period of expulsion or removal which the student would have received in the district had the student committed the offense while enrolled in the district. Prior to denying admission, however, the Superintendent shall offer the student an opportunity for a hearing to review the circumstances of the suspension or expulsion and any other factors the Superintendent determines to be relevant.

If a student has been recently discharged or released from the custody of the Department of Youth Services and is seeking admittance or re-admittance into the district, the student will not be admitted until the following records, which are required to be released by the DYS to the Superintendent, have been received:

- A. an updated copy of the student's transcript;
- B. a report of the student's behavior while in DYS custody;
- C. the student's current IEP, if one has been developed for the child; and
- D. a summary of the instructional record of the child's behavior.

[Back to Table of Contents](#)

Foreign students and foreign-exchange students (from recognized and approved student programs) are eligible for admission on the same basis as other non-resident students.

SCHEDULING AND ASSIGNMENT

Schedules are provided to each student at the beginning of the school year or upon enrollment. Schedules are based on the student's needs and available class space. Any changes in a student's schedule should be handled through the Counseling Office. Students may be denied course enrollment due to lack of available space or the need for the student to pass prerequisite courses. Students are expected to follow their schedules. Any variation must be approved with a pass or schedule change.

EARLY DISMISSAL

It is necessary that a student be in attendance throughout the school day in order to benefit fully from the educational program of the District.

The Board of Education recognizes, however, that from time-to-time compelling circumstances require that a student be late to school or dismissed before the end of the school day.

As agent responsible for the education of the children of this District, the Board shall require that the school be notified in advance of such absences by written, personal, or telephone request of the student's parent, which shall state the reason for the tardiness or early dismissal. Justifiable reasons shall be determined by the principal.

If one (1) parent has been awarded custody of the student by the courts, the parent of custody shall provide the school with a copy of the custody order and inform the school in writing of any limitations in the rights of the noncustodial parent. Absent such notice, the school will presume that the student may be released into the care of either parent.

No student who has a medical disability which may be incapacitating may be released without a person to accompany him/her.

No student shall be released to anyone who is not authorized such custody by the parents.

WITHDRAWAL/TRANSFER FROM SCHOOL

No student under the age of eighteen is allowed to withdraw from school without the written consent of his/her parents and in compliance with state law. A student who otherwise withdraws from school shall be reported to the juvenile judge of the county and to the Bureau of Motor Vehicles for suspension of their driver's license, if s/he is under the age of 18.

Parents must notify the principal about plans to transfer their child to another school. School records, including disciplinary records of suspension and expulsion, will be transferred to the new school within 14 days of the parents' notice or request.

[Back to Table of Contents](#)

IMMUNIZATIONS

Students must be current with all immunizations required by law, including but not limited to poliomyelitis, measles, diphtheria, rubella, pertussis, tetanus, and mumps, or have an authorized exemption from State immunization requirements. Kindergarten students must be immunized against Hepatitis B and chicken pox. For the safety of all students, the school principal may remove a student from school or establish a deadline for meeting State requirements if a student does not have the necessary immunizations or authorized exemption. In the event of a chicken pox epidemic, the Superintendent may temporarily deny admission to a student otherwise exempted from the chicken pox immunization requirement. Any questions about immunizations or exemptions should be directed to the school Nurse/Health Aide.

EMERGENCY MEDICAL AUTHORIZATION

A completed Emergency Medical Authorization Form must be on file with the school in order for a student to participate in any activity off school grounds, including field trips, spectator trips, athletic and other extra-curricular activities, and co-curricular activities. The Emergency Medical Authorization form is submitted by parents at the time of enrollment and at the beginning of each school year.

USE OF PRESCRIPTION MEDICATIONS

Students who must take prescribed medication during the school day, must comply with the following guidelines:

- A. Parents should determine, with the counsel of their child's prescriber, whether the medication schedule can be adjusted to avoid administering medication during school hours.
- B. The appropriate medication permission form must be filed with the respective building nurse / health aide before the student will be allowed to begin taking any medication during school hours or to use an inhaler to self-administer asthma medication. Such forms must be filed annually and as necessary for any change in the medication.
- C. All medications must be registered with the health office and must be delivered to school in the original containers in which they were dispensed by the prescribing physician or licensed pharmacist, labeled with the date, the student's name, and the exact dosage to be administered.
- D. Medication that is brought to the office will be properly secured. Except as noted below, medication must be delivered to the health office by the student's parent or guardian or by another responsible adult at the parent or guardian's request. Except as noted below, students may not bring medication to school. Students may carry emergency medications for allergies and/or reactions, or asthma inhalers during school hours provided the student has written permission from a parent and physician and has submitted the proper forms. In the case of epinephrine autoinjectors ("epipens"), in addition to written permission and submission of proper forms, the parent or student must provide a back up dose to the school nurse. Students are strictly prohibited from transferring emergency medication, epipens, or inhalers to any other student for their use or possession.

- E. Any unused medication unclaimed by the parent will be destroyed by school personnel when a prescription is no longer to be administered or at the end of a school year.
- F. The parents shall have sole responsibility to instruct their child to take the medication at the scheduled time.
- G. The nurse / health aide will maintain a log noting the personnel designated to administer medication, as well as the date and the time of day that administration is required. This log will be maintained along with the prescriber's written request and the parent's written release.

OVER-THE-COUNTER MEDICATIONS

No staff member will dispense non prescribed, over-the-counter medication to any student without a medication permission form signed by both parent and physician. The medication is to be brought to the health office in the original container by the parent. Medical permission forms are available from the health office and the district website, www.foresthills.edu.

If a student is found using or possessing medication, the student will be brought to the school office while the student's parents are contacted. The medication will be confiscated. Any student who distributes medication of any kind or who is found in possession of unauthorized medication is in violation of the school's Code of Conduct and will be disciplined in accordance with the drug-use provision of the Code.

CONTROL OF CASUAL-CONTACT COMMUNICABLE DISEASES

Because a school has a high concentration of people, it is necessary to take specific measures when the health or safety of the group is at risk. The school's professional staff may remove or isolate a student who has been ill or has been exposed to a communicable disease or highly-transient pest, such as lice. Specific communicable diseases include diphtheria, scarlet fever, strep infections, whooping cough, mumps, measles, rubella, and other conditions indicated by the local and state Health Departments. Any removal will be limited to the contagious period as specified in the school's administrative guidelines.

CONTROL OF NONCASUAL-CONTACT COMMUNICABLE DISEASES

The school district has an obligation to protect staff and students from noncasual-contact communicable diseases. When a noncasual-contact communicable disease is suspected, the student's health will be reviewed by a panel of resource people, including the County Health Department. The school will protect the privacy of the person affected and those in contact with the affected person. Students and staff will be permitted to remain in school unless there is definitive evidence to warrant exclusion. Noncasual-contact communicable diseases include sexually transmitted diseases, AIDS, ARC-AIDS Related Complex, HIV, Hepatitis B, and other diseases that may be specified by the State Board of Health. As required by Federal law, parents may be requested to have their child's blood checked for HIV and HBV when the child bleeds at school and students or staff members are exposed to the blood. Any testing is subject to laws protecting confidentiality.

CONTROL OF BLOOD-BORNE PATHOGENS

The school district seeks to provide a safe educational environment for students and take appropriate measures to protect those students who may be exposed to bloodborne pathogens in the school environment and/or during their participation in school-related activities. While the risks of students being exposed to blood-borne pathogens may be low, students must assume that all body fluids are potentially infectious and must take precaution to follow universal procedures in order to reduce such risks and minimize and/or prevent the potential for accidental infection. Students may be exposed to blood-borne pathogens in situations, including, but not limited to the following:

- Engaging in activities with other students in the school environment (e.g., physical education class) where physical injuries or other actions that can cause bleeding or exposure to saliva and other body fluids may occur.
- Working with equipment in the school environment that can cause cuts or similar injuries that produce bleeding.
- Participating in extra-curricular activities (i.e., athletic activities) where physical injuries or other actions that can cause bleeding may occur.

Whenever a student has contact with blood or other potentially infectious material, s/he must immediately notify his/her teacher, who will contact the Health Center and assist the student in completing the requisite documents. The parents of a student who is exposed will be contacted immediately regarding the exposure and encouraged to have the student's blood tested for Hepatitis B and HIV either by his/her physician. The student's parents are encouraged to consult with the student's physician concerning any necessary post-exposure treatment. The student's parent will also be asked to provide a copy of the test results and any post-exposure treatment for maintenance in the student's educational record in accordance with the Federal and State laws concerning confidentiality. The parents of the student who caused the exposure will also be contacted immediately and advised to have the student's blood tested for Hepatitis B and HIV virus either in cooperation with his/her physician or Health Center. The student's parents will be asked to provide a copy of the test results for maintenance in the student's educational record in accordance with Federal and State laws concerning confidentiality. The student's parents may be encouraged to allow the district to release their child's name to the exposed student's parents, in the event serious health issues are presented as a result of the exposure.

STUDENTS WITH DISABILITIES

The American's with Disabilities Act and Section 504 of the Rehabilitation Act (Section 504) prohibit discrimination against persons with a disability in any program receiving Federal financial assistance. This protection applies not just to students, but to all individuals who have access to the district's programs and facilities. The laws define a person with a disability as anyone who:

- A. Has a mental or physical impairment that substantially limits one or more major life activities;
- B. Has a record of such an impairment; or
- C. Is regarded as having such an impairment.

The district has specific responsibilities under these two laws, which include identifying, reviewing and, if the child is determined to be eligible, affording access to appropriate educational accommodation.

Additionally, in accordance with State and Federal mandates, the district seeks out, assesses and appropriately services students with disabilities. Staff members use a comprehensive child study process to systematically screen, assess and, if appropriate, place students in special education and related services. Students are entitled to a free appropriate public education in the "least restrictive environment."

A student can access special education and related services through the proper evaluation procedures. Parent involvement in this procedure is important and required by Federal and State law. Contact the Building Case Coordinator to inquire about evaluation procedures, programs, and services.

HOMELESS STUDENTS

Homeless students will be provided with a free and appropriate public education in the same manner as other students served by the district. Homeless students are eligible to receive transportation services, participate in education programs for students with disabilities or limited English proficiency, participate in gifted and talented programs, and receive meals under school nutrition programs. Homeless students will not be denied enrollment based on lack of proof of residency. For additional information contact Betsy Ryan, Director of Teaching and Learning, at 231-3600.

Reference Board [Policy 5111.01](#)

PROTECTION AND PRIVACY OF STUDENT RECORDS

The school district maintains many student records including both directory information and confidential information.

DIRECTORY INFORMATION

Each year, the Superintendent shall provide public notice to students and their parents of the district's intent to make available, upon request, certain information known as "directory information." The Board designates as student "directory information": a student's name; address; telephone number; date and place of birth; major field of study; participation in officially-recognized activities and sports; height and weight, if a member of an athletic team; dates of attendance; date of graduation; or awards received.

The Board designates school-assigned email accounts as "directory information" for the limited purpose of facilitating students' registration for access to various online educational services, including mobile applications/apps that will be utilized by the student for educational purposes and for inclusion in internal email address books. School-assigned email accounts shall not be released as directory information beyond this/these limited purpose(s) and to any person or entity but the specific online educational service provider and internal users of the district's Education Technology.

Directory information shall not be provided to any organization for profit-making purposes.

[Back to Table of Contents](#)

Parents and eligible students may refuse to allow the Board to disclose any or all of such "directory information" upon written notification to the Board within thirty (30) days after receipt of the Superintendent's annual public notice.

In accordance with federal and state law, the Board shall release the names, addresses, and telephone listings of secondary students to a recruiting officer for any branch of the United States Armed Forces or an institution of higher education who requests such information. A secondary school student or parent of the student may request in writing that the student's name, address, and telephone listing not be released. The Superintendent is authorized to charge mailing fees for providing this information to a recruiting officer.

Whenever consent of the parent(s)/eligible student is required for the inspection and/or release of a student's health or education records or for the release of "directory information," either parent may provide such consent unless agreed to otherwise in writing by both parents or specifically stated by court order. If the student is under the guardianship of an institution, the Superintendent shall appoint a person who has no conflicting interest to provide such written consent.

The Board shall not permit the collection, disclosure, or use of personal information collected from students for the purpose of marketing or for selling that information (or otherwise providing that information to others for that purpose).

STUDENT RECORDS 8330

In order to provide appropriate educational services and programming, the Board of Education must collect, retain, and use information about individual students. Simultaneously, the Board recognizes the need to safeguard students' privacy and restrict access to students' personally identifiable information.

Student "personally identifiable information" ("PII") includes, but is not limited to: the student's name; the name of the student's parent or other family members; the address of the student or student's family; a personal identifier, such as the student's social security number, student number, or biometric record; other indirect identifiers, such as the student's date of birth, place of birth, and mother's maiden name; other information that, alone or in combination, is linked or linkable to a specific student that would allow a reasonable person in the school community, who does not have personal knowledge of the relevant circumstances, to identify the student with reasonable certainty; or information requested by a person who the District reasonably believes knows the identity of the student to whom the education record relates.

The Board is responsible for the records of all students who attend or have attended schools in this District. Only records mandated by the State or Federal government and/or necessary and relevant to the function of the School District or specifically permitted by this Board will be compiled by Board employees.

In all cases, permitted, narrative information in student records shall be objectively-based on the personal observation or knowledge of the originator.

Student records shall be available only to students and their parents, eligible students, designated school officials who have a legitimate educational interest in the information, or to other individuals or organizations as permitted by law.

The term "parents" includes legal guardians or other persons standing in loco parentis (such as a grandparent or stepparent with whom the child lives, or a person who is legally responsible for the welfare of the child). The term "eligible student" refers to a student who is eighteen (18) years of age or older, or a student of any age who is enrolled in a postsecondary institution.

Both parents shall have equal access to student records unless stipulated otherwise by court order or law. In the case of eligible students, parents may be allowed access to the records without the student's consent, provided the student is considered a dependent under section 152 of the Internal Revenue Code.

A school official is a person employed by the Board as an administrator, supervisor, teacher/instructor (including substitutes), or support staff member (including health or medical staff and law enforcement unit personnel); and a person serving on the Board. The Board further designates the following individuals and entities as "school officials" for the purpose of FERPA:

- A. persons or companies with whom the Board has contracted to perform a specific task (such as an attorney, auditor, insurance representative, or medical consultant), and
- B. contractors, consultants, volunteers, or other parties to whom the Board has outsourced a service or function otherwise performed by the Board employees (e.g. a therapist, authorized information technology (IT) staff, and approved online educational service providers)

The above-identified outside parties must (a) perform institutional services or functions for which the Board would otherwise use its employees, (b) be under the direct control of the Board with respect to the use and maintenance of education records, and (c) be subject to the requirements of 34 C.F.R. 99.33(a) governing the use and redisclosure of PII from education records.

Finally, a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his/her tasks (including volunteers) is also considered a "school official" for purposes of FERPA provided s/he meets the above-referenced criteria applicable to other outside parties.

"Legitimate educational interest" is defined as a "direct or delegated responsibility for helping the student achieve one (1) or more of the educational goals of the District" or if the record is necessary in order for the school official to perform an administrative, supervisory, or instructional task or to perform a service or benefit for the student or the student's family. The Board directs that reasonable and appropriate methods (including but not limited to physical and/or technological access controls) are utilized to control access to student records and to make certain that school officials obtain access to only those education records in which they have legitimate educational interest.

The Board authorizes the administration to:

- A. forward student records, including disciplinary records with respect to suspensions and expulsions, upon request to a private or public school or school district in which a student of this District is enrolled, seeks or intends to enroll, or is instructed to enroll, on a full-time or part-time basis, upon condition that:
 - 1. a reasonable attempt is made to notify the student's parent or eligible student of the transfer (unless the disclosure is initiated by the parent or eligible student; or the Board's annual notification includes a notice that the Board will forward education records to other agencies or institutions that have requested the records and in which the student seeks or intends to enroll or is already enrolled so long as the disclosure is for purposes related to the student's enrollment or transfer);
 - 2. the parent or eligible student, upon request, receives a copy of the record; and
 - 3. the parent or eligible student, upon request, has an opportunity for a hearing to challenge the content of the record;
- B. forward student records, including disciplinary records with respect to suspensions and expulsions, upon request to a juvenile detention facility in which the student has been placed, or a juvenile court that has taken jurisdiction of the student;
- C. forward student records, including disciplinary records with respect to suspensions and expulsions, upon request to a public school or school district in which a student in foster care is enrolled. Such records shall be transferred within one (1) school day of the enrolling school's request;
- D. provide "personally-identifiable" information to appropriate parties, including parents of an eligible student, whose knowledge of the information is necessary to protect the health or safety of the student or other individuals, if there is an articulable and significant threat to the health or safety of a student or other individuals, considering the totality of the circumstances;
- E. report a crime committed by a child to appropriate authorities, and, with respect to reporting a crime committed by a student with a disability, to transmit copies of the student's special education and disciplinary records to the authorities for their consideration;
- F. release de-identified records and information in accordance with Federal regulations;
- G. disclose personally identifiable information from education records, without consent, to organizations conducting studies "for, or on behalf of" the District for purposes of developing, validating or administering predictive tests, administering student aid programs, or improving instruction;
- H. Information disclosed under this exception must be protected so that students and parents cannot be personally identified by anyone other than representative of the organization conducting the study, and must be destroyed when no longer needed for the study. In order to release information under this provision, the District will enter into a written agreement with the recipient organization that specifies the purpose of the study. Further, the following personally identifiable information will not be disclosed to any entity: a student or his/her family member's social security number(s); religion; political party affiliation; voting history; or biometric information.

- I. While the disclosure of personally identifiable information (other than social security numbers, religion, political party affiliation, voting record, or biometric information) is allowed under this exception, it is recommended that de-identified information be used whenever possible. This reduces the risk of unauthorized disclosure.
- J. disclose personally identifiable information from education records without consent, to authorized representatives of the Comptroller General, the Attorney General, and the Secretary of Education, as well as State and local educational authorities;
- K. The disclosed records must be used to audit or evaluate a Federal or State supported education program, or to enforce or comply with Federal requirements related to those education programs. A written agreement between the parties is required under this exception.
- L. The District will verify that the authorized representative complies with FERPA regulations.
- M. request each person or party requesting access to a student's record to abide by Federal regulations and State laws concerning the disclosure of information.

The Board will comply with a legitimate request for access to a student's records within a reasonable period of time but not more than forty-five (45) days after receiving the request or within such shorter period as may be applicable to students with disabilities. Upon the request of the viewer, a record shall be reproduced, unless said record is copyrighted, or otherwise restricted, and the viewer may be charged a fee equivalent to the cost of handling and reproduction. Based upon reasonable requests, viewers of education records will receive explanation and interpretation of the records.

The Board shall maintain a record of each request for access and each disclosure of personally identifiable information. Such disclosure records will indicate the student, person viewing the record, their legitimate interest in the information, information disclosed, date of disclosure, and date parental/eligible student consent was obtained (if required).

Only "directory information" regarding a student shall be released to any person or party, other than the student or his/her parent, without the written consent of the parent, or, if the student is an eligible student, without the written consent of the student, except to those persons or parties stipulated by the Board's policy and administrative guidelines and/or those specified in the law.

DIRECTORY INFORMATION

Each year the Superintendent shall provide public notice to students and their parents of the District's intent to make available, upon request, certain information known as "directory information." The Board designates as student "directory information": a student's name; address; telephone number; date and place of birth; major field of study; participation in officially-recognized activities and sports; height and weight, if a member of an athletic team; dates of attendance; date of graduation; or awards received.

The Board designates school-assigned email accounts as "directory information" for the limited purpose of facilitating students' registration for access to various online educational services, including mobile

[Back to Table of Contents](#)

applications/apps that will be utilized by the student for educational purposes and for inclusion in internal e-mail address books.

School-assigned email accounts shall not be released as directory information beyond this/these limited purpose(s) and to any person or entity but the specific online educational service provider and internal users of the District's Education Technology.

Directory information shall not be provided to any organization for profit-making purposes.

Parents and eligible students may refuse to allow the Board to disclose any or all of such "directory information" upon written notification to the Board within thirty (30) days after receipt of the Superintendent's annual public notice.

In accordance with Federal and State law, the Board shall release the names, addresses, and telephone listings of secondary students to a recruiting officer for any branch of the United States Armed Forces or an institution of higher education who requests such information. A secondary school student or parent of the student may request in writing that the student's name, address, and telephone listing not be released without prior consent of the parent(s)/eligible student. The recruiting officer is to sign a form indicating that "any information received by the recruiting officer shall be used solely for the purpose of informing students about military service and shall not be released to any person other than individuals within the recruiting services of the Armed Forces." The Superintendent is authorized to charge mailing fees for providing this information to a recruiting officer.

Whenever consent of the parent(s)/eligible student is required for the inspection and/or release of a student's health or education records or for the release of "directory information," either parent may provide such consent unless agreed to otherwise in writing by both parents or specifically stated by court order. If the student is under the guardianship of an institution, the Superintendent shall appoint a person who has no conflicting interest to provide such written consent.

The Board may disclose "directory information," on former students without student or parental consent, unless the parent or eligible student previously submitted a request that such information not be disclosed without their prior written consent.

The Board shall not permit the collection, disclosure, or use of personal information collected from students for the purpose of marketing or for selling that information (or otherwise providing that information to others for that purpose).

INSPECTION OF INFORMATION COLLECTION INSTRUMENT

The parent of a student or an eligible student has the right to inspect upon request any instrument used in the collection of personal information before the instrument is administered or distributed to a student. Personal information for this section is defined as individually identifiable information including a student or parent's first and last name, a home or other physical address (including street name and the name of the city or town), a

[Back to Table of Contents](#)

telephone number, or a Social Security identification number. In order to review the instrument, the parent or eligible student must submit a written request to the building principal at least three (3) business days before the scheduled date of the activity. The instrument will be provided to the parent or eligible student within three (3) business days of the principal receiving the request.

The Superintendent shall directly notify the parent(s) of a student and eligible students, at least annually at the beginning of the school year, of the specific or approximate dates during the school year when such activities are scheduled or expected to be scheduled.

This section does not apply to the collection, disclosure, or use of personal information collected from students for the exclusive purpose of developing, evaluating, or providing educational products or services for, or to, students or educational institutions, such as the following:

- A. college or other postsecondary education recruitment, or military recruitment
- B. book clubs, magazine, and programs providing access to low-cost literary products
- C. curriculum and instructional materials used by elementary and secondary schools
- D. tests and assessments used by elementary and secondary schools to provide cognitive, evaluative, diagnostic, clinical, aptitude, or achievement information about students (or to generate other statistically useful data for the purpose of securing such tests and assessments) and the subsequent analysis and public release of the aggregate data from such tests and assessments
- E. the sale by students of products or services to raise funds for school-related or education-related activities
- F. student recognition programs

The Superintendent is directed to prepare administrative guidelines so that students and parents are adequately informed each year regarding their rights to:

- A. inspect and review the student's education records;
- B. request amendments if the parent believes the record is inaccurate, misleading, or violates the student's privacy rights;
- C. consent to disclosures of personally-identifiable information contained in the student's education records, except to those disclosures allowed by the law;
- D. challenge Board noncompliance with a parent's request to amend the records through a hearing;
- E. file a complaint with the United States Department of Education;
- F. obtain a copy of the Board's policy and administrative guidelines on student records.

The Superintendent shall also develop procedural guidelines for:

- A. the proper storage and retention of records including a list of the type and location of records;
- B. informing Board employees of the Federal and State laws concerning student records.

The Board authorizes the use of the microfilm process or electromagnetic processes of reproduction for the recording, filing, maintaining, and preserving of records.

No liability shall attach to any member, officer, or employee of this Board as a consequence of permitting access or furnishing student records in accordance with this policy and regulations.

Any entity receiving personally identifiable information pursuant to a study, audit, evaluation or enforcement/compliance activity must comply with all FERPA regulations. Further, such an entity must enter into a written contract with the Board of Education delineating its responsibilities in safeguarding the disclosed information. Specifically, the entity must demonstrate the existence of a sound data security plan or data stewardship program, and must also provide assurances that the personally identifiable information will not be redisclosed without prior authorization from the Board. Further, the entity conducting the study, audit, evaluation or enforcement/compliance activity is required to destroy the disclosed information once it is no longer needed or when the timeframe for the activity has ended, as specified in its written agreement with the Board of Education

SAFE AT HOME/ADDRESS CONFIDENTIALITY PROGRAM

If a parent (or adult student), presents information to the District certifying that the parent (or adult student), his/her child, or a member of the parent's household is a participant in the Safe at Home/Address Confidentiality Program administered by the Secretary of State, the Board shall refrain from including the student's actual/confidential residential address in any student records or files (including electronic records and files) or disclosing the student's actual/confidential residential address when releasing student records. Since student records are available to non-custodial parents, designated school officials who have a legitimate educational interest in the information, and other individuals or organizations as permitted by law (including the public in some situations), the Board shall only list the address designated by the Secretary of State to serve as the student's address in any student records or files, including electronic records and files. Further, the Board shall use the student's designated address for any and all communications and correspondence between the Board and the parent(s) of the student (or adult student). The student's actual/confidential residential address shall be maintained in a separate confidential file that is not accessible to the public or any employees without a legitimate purpose.

Although the student's actual/confidential address will not be available for release as directory information, the parent (or adult student) may also request that the student's name and telephone number be withheld from any release of directory information. Additionally, if applicable, the student's parent's school, institution of higher education, business, or place of employment (as specified on an application to be a program participant or on a notice of change of name or address) shall be maintained in a confidential manner.

If a non-custodial parent presents a subpoena or court order stating that s/he should be provided with copies or access to a student's records, the District will redact the student's confidential address and telephone number from the student's records before complying with the order or subpoena. The District will also notify the custodial/residential parent of the release of student records in accordance with the order or subpoena.

[Back to Table of Contents](#)

The intentional disclosure of student's actual/confidential residential address is prohibited. Any violations could result in disciplinary action or criminal prosecution.

STUDENT FEES AND FINES

Students will be provided necessary textbooks for courses of instruction without cost. In accordance with State law, the district charges specific fees for the activities and materials used in the course of instruction. Charges may also be imposed for loss, damage or destruction of school apparatus, equipment, musical instruments, library materials, textbooks and for damage to school buildings or property. Students using school property and equipment can be fined for excessive wear and abuse of the property and equipment. Fees may be waived in situations where there is financial hardship. Students can avoid late fines by promptly returning borrowed materials.

STUDENT FUNDRAISING

Students participating in school-sponsored groups and activities may solicit funds from other students, staff members, and members of the community in accordance with school guidelines. Students may not sell any item or service in school without the prior approval of the Principal. Violation of this policy may lead to disciplinary action.

STUDENT VALUABLES

Students should not bring items of value to school. Items such as jewelry, expensive clothing, electronic equipment, and the like, are tempting targets for theft and extortion. The school is not liable for any loss or damage to personal valuables.

MEAL SERVICE

FHSD participates in the National School Lunch Program and makes lunches available to students. Ala carte items are available. Students may also bring their own lunch to school to be eaten in the school's cafeteria. Forest Hills also offers secure, online applications for Free and Reduced-Price Family Meals. By applying online, parents will receive an immediate response regarding qualification. Apply at <https://foresthills.sdms2.com> . Call Food Services with questions at 231-3215.

SAFETY AND SECURITY

- A. All visitors must report to the office when they arrive at school.
- B. All visitors are given and required to wear a building pass while they are in the building.
- C. Staff are expected to question people in the building whom they do not recognize and who are not wearing a building pass, and to question people who are "hanging around" the building after hours.

[Back to Table of Contents](#)

- D. Students and staff are expected to immediately report to a teacher or administrator any suspicious behavior or situation that makes them uncomfortable.
- E. As many unneeded outside doors as possible are locked during the school day.
- F. Portions of the building that will not be needed after the regular school days are closed off.
- G. All district employees are to wear photo-identification badges while in district schools and offices or on district property.

FIRE, TORNADO, AND SAFETY DRILLS

The school complies with all fire safety laws and will conduct fire drills in accordance with State law. The school conducts tornado drills during the tornado season following procedures prescribed by the State. Teachers will provide specific instructions on how to proceed in the case of fire or tornado and will oversee the safe, prompt, and orderly evacuation of the building in such cases.

Safety drills will be conducted at least three times per school year. Teachers will provide specific instruction on the appropriate procedures to follow in situations where students may be secured in their building rather than evacuated. These situations can include a terrorist threat, a person in possession of a deadly weapon on school property, or other acts of violence.

EMERGENCY CLOSING AND DELAYS

If the school must be closed or the opening delayed because of inclement weather or other conditions, the school district will notify local radio and television stations. Information concerning school closings or delays can also be found on the district website, www.foresthills.edu, [district Facebook page](#), and [district Twitter](#) account. Parents will be notified of school closings or delays via a pre-recorded telephone message delivered to the primary phone number on file.

PREPAREDNESS FOR TOXIC AND ASBESTOS HAZARDS

The school is concerned for the safety of students and attempts to comply with all Federal and State Laws and Regulations to protect students from hazards that may result from industrial accidents beyond the control of school officials or from the presence of asbestos materials used in previous construction. A copy of the school district's [Preparedness for Toxic Hazard and Asbestos Hazard Policy](#) and asbestos management plan is available for inspection at Central Office upon request.

VISITORS

Visitors, particularly parents, are welcome at school. Visitors must report to the office upon entering the school to sign in and obtain a pass. Any visitor found in the building without a pass shall be reported to the Principal. If a person wishes to confer with a member of the staff, s/he should call for an appointment prior to coming to the school in order to schedule a mutually convenient meeting time. Students may not bring visitors to school without prior written permission from the Principal.

[Back to Table of Contents](#)

USE OF COMMON AREAS

Commons areas, including the Learning Commons, are available to students throughout the school day. Passes may be obtained from a staff member. In order to avoid late fees, all materials checked out of the learning commons, must be returned.

USE OF SCHOOL EQUIPMENT AND FACILITIES

Students must receive teacher permission before using any equipment or materials in the classroom. Students must seek permission from the Principal prior to using any other school equipment or facility. Students are responsible for the proper use and protection of any equipment or facility they are permitted to use.

LOST AND FOUND

Students who have lost items should check with the main office and may retrieve their items if they give a proper description. Unclaimed items will be given to charity at the close of the school year.

USE OF OFFICE TELEPHONES

Office telephones may not be used for personal calls. Except in an emergency, students will not be called to the office to receive a telephone call.

USE OF WIRELESS COMMUNICATION DEVICES

A student may possess a cellular telephone or other electronic communication devices (PCD) (e.g., smart phones, laser pointers and attachments, paging devices/beepers, and other devices designed to receive and send an electronic signal) in school, on school property, at after school activities, and at school-related functions. Students may not use cellular telephones or PCDs on school property or at a school-sponsored activity to access and/or view Internet web sites that are otherwise blocked to students at school.

When participating in school activities or when directed by the administrator or sponsor, cellular telephones and other PCDs shall be turned off (not just placed into vibrate or silent mode) and stored out of sight.

Students shall have no expectation of confidentiality with respect to their use of PCDs on school premises/property.

Students may not use a PCD in any way that might reasonably create in the mind of another person an impression of being threatened, humiliated, harassed, embarrassed or intimidated. See [Policy 5517.01 – Bullying and Other Forms of Aggressive Behavior](#). In particular, students are prohibited from using PCDs to: (1) transmit material that is threatening, obscene, disruptive, or sexually explicit or that can be construed as harassment or disparagement of others based upon their race, color, national origin, sex, sexual orientation, disability, age, religion, ancestry, or political beliefs; and (2) engage in "sexting" – i.e., sending, receiving, sharing, viewing, or possessing pictures, text messages, e-mails or other materials of a sexual nature in electronic or any other form. Violation of these prohibitions shall result in disciplinary action. Furthermore,

[Back to Table of Contents](#)

such actions will be reported to local law enforcement and child services as required by law.

Students are also prohibited from using a PCD to capture, record, and/or transmit test information or any other information in a manner constituting fraud, theft, cheating, or academic dishonesty. Likewise, students are prohibited from using PCDs to receive such information.

Possession of a cellular telephone or other PCD by a student is a privilege, which may be forfeited by any student who fails to abide by the terms of this policy, or otherwise engages in misuse of this privilege.

Violations of this policy may result in disciplinary action and/or confiscation of the cellular telephone or PCD. If the cellular telephone or PCD is confiscated, it will be released/returned to the student's parent/guardian after the student complies with any other disciplinary consequence that is imposed. The building principal may also refer the matter to law enforcement if the violation involves an illegal activity.

The student who possesses a cellular telephone or PCD is responsible for its care. The Board is not responsible for preventing theft, loss, damage, or vandalism to cellular telephones or PCDs brought onto its property.

Revised 9/26/16

ADVERTISING OUTSIDE ACTIVITIES

Students may not post announcements or advertisements for outside activities without receiving prior approval. The school has central designated locations that may be used for posting notices after receiving permission.

Section II - Academics

FIELD TRIPS

Field trips are academic activities that are held off school grounds. There are also other trips that are part of the school's co-curricular and extra-curricular program. No minor student may participate in any school-sponsored trip without parental consent and a current emergency medical form on file in the office. Medications normally administered at school will be administered while on field trips. The Student Code of Conduct applies to all field trips. Attendance rules apply to all field trips. While the district encourages students to participate in field trips, alternative assignments will be provided for any student whose parent does not give permission for the student to attend. Students who violate school rules may lose the privilege to go on field trips.

GRADES

The district has a standard grading procedure, as well as additional notations that indicate work in progress or incomplete work. Grades indicate the extent to which the student has acquired and demonstrated the necessary learning. In general, students are assigned grades based upon test results, homework, projects, and classroom participation. Each teacher may place a different emphasis on these areas when determining a grade and will so inform the students at the beginning of the course. If a student is not sure how his/her grade will be determined, s/he should ask the teacher.

The school applies the following grading system:

A+ (97-100)	4.0	C+ (77-79)	2.3
A (93-96)	4.0	C (73-76)	2.0
A- (90-92)	3.7	C- (70-72)	1.7
B+ (87-89)	3.3	D+ (67-69)	1.3
B (83-86)	3.0	D (65-66)	1.0
B- (80-82)	2.7	F (0-64)	0.0

GRADING PERIODS

Students will receive a digital report card at the end of each grading period indicating their grades for each course of study for that portion of the academic term. When a student appears to be at risk of failure, reasonable efforts will be made to notify the parents so they can talk with the teacher about what actions can be taken to improve poor grades.

PROMOTION, ACCELERATION, AND RETENTION

The Board of Education recognizes that the personal, social, physical, and educational growth of children will vary and that they should be placed in the educational setting most appropriate to their needs at the various stages of their growth. It is the Board's intent that each student be moved forward in a continuous pattern of achievement and growth that is in harmony with his/her own development. Such pattern should coincide with

[Back to Table of Contents](#)

the system of grade levels established by this Board and the instructional objectives established for each. The promotion and retention provisions of this policy shall be in compliance with the terms of Ohio's Third Grade Reading Guarantee ([Policy 2623.02](#)).

Promotion

A student will be promoted to the succeeding grade level when s/he has:

- A. completed the course and State-mandated requirements at the presently assigned grade;
- B. in the opinion of the professional staff, achieved the instructional objectives set for the present grade;
- C. demonstrated sufficient proficiency to permit him/her to move ahead in the educational program of the next grade;
- D. demonstrated the degree of social, emotional, and physical maturation necessary for a successful learning experience in the next grade.

Academic Acceleration

Academic acceleration may involve whole-grade acceleration or individual subject acceleration. Academic acceleration occurs when a student is not only doing the caliber of work necessary to be promoted to the next grade or enrolled in the next course in the academic sequence, but also demonstrates the ability to do the caliber of work required of students in that next grade level/subject/course. An acceleration evaluation committee will determine whether the student will be permitted to skip a grade level (i.e., whole-grade acceleration), or take a subject at a higher grade level or skip a course in the usual and customary academic sequence (i.e., individual subject acceleration).

Any student residing in the district may be referred by a staff member or a parent/guardian to the principal of his/her school for evaluation for possible accelerated placement. Students may refer themselves or a peer through a staff member who has knowledge of the referred child's abilities. Copies of referral forms for evaluation for whole-grade or individual subject acceleration will be available at each school building.

Students referred for accelerated placement will be evaluated in a prompt manner. District administrative staff will schedule the evaluations. Before a student is evaluated for accelerated placement, the principal (or his/her designee) shall obtain written permission from the student's parent/guardian. Evaluations related to referrals that occur during the school year will ordinarily be completed and a written report issued within 45 calendar days. Evaluations related to referrals that occur at the end of a school year or during the summer will be completed and a written report issued either before the end of the school year, if possible, or within 45 calendar days of the start of the next school year.

Retention

A student may be retained at his/her current grade level when s/he has:

- A. in the opinion of the professional staff, failed to demonstrate proficiency in the core subjects;
- B. in the opinion of the professional staff, failed to achieve the instructional objectives set forth at the current grade level that are requisite for success at the succeeding grade level.

[Back to Table of Contents](#)

A student may be placed at the next grade level when retention would no longer benefit the student. The Superintendent shall develop administrative guidelines for promotion, placement, and retention of students that:

- A. require the recommendation of the relevant staff members for promotion, placement, or retention;
- B. require that parents are informed in advance of the possibility of retention of a student at a grade level;
- C. assure that efforts will be made to remediate the student's difficulties before s/he is retained;
- D. require that a student be retained if s/he is truant for ten percent (10%) or more of the required school days and has failed at least two (2) courses of study, unless the principal and the teachers of the failed subjects determine that the student is academically prepared to be promoted;
- E. assign to the principal the responsibility for determining the promotion, placement, or retention of each student;
- F. provide parents the opportunity to request the promotion, placement, or retention of their child;
- G. provide parents the opportunity to appeal the decision to the Superintendent about their child's promotion, placement, or retention.

GRADUATION REQUIREMENTS

In order to acknowledge each student's successful completion of the instructional program appropriate to the achievement of district goals and objectives as well as personal proficiency, the Board of Education awards a diploma to eligible students at a graduation ceremony.

The Board shall award a regular high school diploma to every student enrolled in Forest Hills who meets the requirements of graduation established by this Board and completes the tests required by the State Board of Education in order to graduate. In addition to earning course credits, each student must earn the required number of points, unless exempted, on the tests required by the State Board of Education to graduate.

The requirements for graduation from high school include earning twenty-two (22) units of credit in grades nine through twelve as established in State law and passing the graduation tests required by the State Board of Education or meeting the alternative pathway to graduation. However, no student shall be required to remain in school for any specific number of semesters or other terms if the student completes the required curriculum early.

A diploma shall be awarded to students meeting the curriculum credit requirements and who achieve one of the following three options: earn the required minimum total number of points on the End of Course Ohio's State Tests, earn the required points on the WorkKeys assessment and an approved industry-recognized credential, or earn a remediation-free score in English language arts and mathematics on the ACT or SAT, subject to limitations on assessments as outlined below.

[Back to Table of Contents](#)

All students must receive instruction in economics and financial literacy during grades 9 – 12. Additionally, all students must receive instruction in cardiopulmonary resuscitation and the use of an automated external defibrillator from an approved source during grades 9-12, unless the student is exempted from such training due to disability or by written request of the parent.

Students who achieve an industry credential or license that requires an examination shall not be required to take additional technical assessments. If the student does not participate in licensure or license examination, the student shall take the applicable technical assessments. Students must attain specified scores on assessments as required to demonstrate workforce readiness on a nationally recognized job skills assessment in order to obtain a diploma.

Certain students are not required to take the college and career readiness assessments administered to all eleventh (11th) grade students:

- A. students who demonstrate they are remediation-free on the English, math and reading nationally-recognized assessments prior to the administration of the college and career readiness assessments;
- B. students with significant cognitive disabilities who take an alternative assessment and students with intellectual disabilities outlined in state guidance, and
- C. limited English proficient students enrolled in United States schools for less than two years for whom no appropriate accommodations is available.

Students may take the assessment even if they are not required to do so.

Physical Education Waiver

Students who have participated in OHSAA and school recognized interscholastic athletics, marching band, or cheerleading for at least two (2) full seasons while enrolled in grades 9 through 12, and as documented by the athletic director and school counselor, may be excused from the high school physical education requirement. Students electing such an excuse shall complete one-half (1/2) unit of at least sixty (60) hours of instruction in another course of study which is designated by the Board as meeting the high school curriculum requirement.

Credit may be earned by:

- A. completing coursework;
- B. testing out of or demonstrating mastery of course content; or
- C. pursuing one or more educational options in accordance with the District's Credit Flexibility Program.

Credit may be earned at an accredited postsecondary institution. This option for students is now called College Credit Plus.

Every high school may permit students below the ninth grade to take advanced work for credit. This work shall count toward the graduation requirements if it was both:

- A. taught by a person who possesses a license/certificate issued under State law that is valid for teaching high school;
- B. designated by the Board as meeting the high school curriculum requirements.

The district will comply with State Board of Education requirements for graduation. Students shall earn required credits for graduation in the appropriate subject areas, and achieve one of three pathways:

[Back to Table of Contents](#)

- A. earning a cumulative score on end of course exams equal to State Board requirements for the year of graduation; or
- B. earning remediation-free scores in English language arts and math on a nationally recognized college admission exam; or
- C. earning a State Board of Education approved, industry-recognized credential or group of credentials and a workforce readiness score on the WorkKeys assessment

An honors diploma shall be awarded to any student who meets the established requirements for graduation or the requirements of his/her IEP; attains the applicable scores on the tests required by the State Board of Education to graduate; and meets any additional criteria the State Board may establish.

Commencement exercises will include only those students who have successfully completed requirements for graduation as certified by the high school principal or those students who have been deemed eligible to participate in such exercises in accordance with the terms of their IEP. No student who has completed the requirements for graduation shall be denied a diploma as a disciplinary measure. A student may be denied participation in the ceremony of graduation when personal conduct so warrants.

The Board also shall grant a diploma of adult education to all district residents over the age of twenty-one (21) who meet the requirements established by the State Board of Education.

The Superintendent shall establish whatever administrative guidelines are necessary to comply with State rules and regulations.

2 = Basic

1 = Limited

Students studying Advanced Placement (AP), International Baccalaureate (IB), or taking dual enrollment courses in American History, or American Government may take assessments aligned to those courses in lieu of end-of-course exams to avoid double testing.

Unless otherwise exempted, students must accumulate a minimum of eighteen (18) points from scores on their end-of-course exams to become eligible for a diploma.

Students who score below proficient on an exam may retake it after receiving extra help on the course content. Students who score proficient or higher on an end-of-course exam may retake the exam only if, once they take all exams, they have not met the minimum number of graduation points needed to graduate. In such a case, a student may retake any exam after receiving help on the course content.

Assessment Options

Students who do not earn the required number of graduation points can become eligible for a diploma if they earn a remediation-free score on a national college admission test. This assessment will be given to students free-of-charge in the Spring of the 11th grade year starting with the graduating class of 2018.

[Back to Table of Contents](#)

Students may also qualify for graduation by earning an approved industry-recognized credential and achieving a workforce-readiness score on a related job skills assessment.

Students below the ninth grade level may take high school courses for advanced credit toward graduation. In order to receive such credit, the course must be taught by a person certified/licensed to teach in high school and the course must be designated by the Board as meeting the high school curriculum requirements.

Any person, residing in the district, who has completed the academic requirements in any high school but has not passed all the tests required by the State Board of Education for graduation is to be awarded a diploma from this district if s/he retakes and passes any unpassed tests at the high school during the designated testing days, unless excused from the tests as provided in law. The person is not required to meet the requirements established by this district.

Revised 4/25/16

EARLY GRADUATION

Students who wish to apply for early graduation should apply to the high school principal. Early graduation will be permitted if the student fulfills the graduation requirements and conditions for graduation. Students who choose early graduation may participate in the graduation ceremonies of their designated class.

EDUCATIONAL OPTIONS

Forest Hills School District provides alternative means by which a student can achieve the goals of the district, as well as his/her personal educational goals. Educational options are learning experiences or activities that are designed to extend, enhance, supplement, or serve as an alternative to classroom instruction. The Superintendent shall prepare a plan of educational options for use in meeting a variety of student needs. Such options will include the district's Credit Flexibility plan and may include, but not be limited to, distance learning, online coursework, tutorial programs, independent study, correspondence courses, educational travel, project portfolios, internships, mentorship programs, summer school, and early college entrance. Prior approval of the educational option application by the Superintendent shall be required before a student participates in one of the available educational options. Prior permission of a parent or guardian shall also be required before a student under age 18 participates in one of the available educational options. Participation in an educational option shall be in accordance with an instructional and performance plan which will be developed based on the individual student's needs. The instructional plan will include:

- A. instructional and performance objectives that align with district's curriculum requirements;
- B. a description of the criteria and method for assessing student performance;
- C. an outline of specific instructional activities, materials and learning environments.

Participation must be subject to the oversight of a credentialed teacher who will review the instructional plan which may include providing, supervising or reviewing instruction or learning experiences, and the evaluation of student performance.

[Back to Table of Contents](#)

Credit for approved educational options shall be assigned according to student performance relative to stated objectives of the approved instructional and performance plan and in accordance with district policy and established administrative guidelines.

The district shall communicate information and procedures related to credit flexibility and educational options available in the district to students, parents, and interested stakeholders. The Superintendent shall develop the administrative guidelines necessary to implement this policy.

A.C. 3301-35-06(G) Revised 1/31/11

COLLEGE CREDIT PLUS PROGRAM

The Board of Education recognizes the value to students and to the district for students to participate in programs offered by accredited colleges and universities in Ohio. The Board will approve participation by students who apply to the participating college or university ("institute of higher education" or "IHE") and meet the IHE's established standards for admission and course placement to enroll in an approved postsecondary program during the seventh, eighth, ninth, tenth, eleventh, or twelfth grade year while in attendance in the district. Students will be eligible to receive secondary credit for completing any of these programs.

The Board will provide information about the College Credit Plus program prior to March 1st to all students enrolled in grades six through eleven and their parents as outlined in Board policy AG [2271](#). The Board will also promote the College Credit Plus program on its website, including the details of the Board's current agreements with partnering IHEs. All students must meet the requirements for participating in the College Credit Plus program outlined in Board policy AG [2271](#).

The Board may deny high school credit for postsecondary courses any portion of which are taken during the period of a student's expulsion. If the student has elected to receive credit for course(s) toward fulfilling graduation requirements as well as postsecondary credit, that election is automatically revoked for all college courses in which the student enrolled during the college term in which the expulsion is imposed.

When a student is expelled, the Board directs the Superintendent to send written notice of the expulsion to any college in which the expelled student is enrolled under R.C. 3365.03 (Postsecondary Enrollment Options) at the time the expulsion is imposed. This notice shall indicate the date the expulsion is scheduled to expire and that the Board has adopted a policy under R.C. 3313.613 to deny high school credit for postsecondary courses taken during an expulsion. If the expulsion period is later extended, the Superintendent shall notify the college of the extension.

The Board will collect, report, and track program data annually in accordance with data reporting guidelines adopted by the chancellor and the Superintendent of Public Instruction pursuant to R.C. 3365.15.

The Superintendent shall establish the necessary administrative guidelines to comply with State law which will thereafter be properly communicated to both students and their parents. The Superintendent shall also establish guidelines and procedures for the awarding of credit and the proper entry on a student's transcript and other records of his/her participation in a postsecondary program.

RECOGNITION OF STUDENT ACHIEVEMENT

Students who display significant achievements during the course of the year are recognized for their accomplishments. Areas that may merit recognition include, but are not limited to, academics, athletics, performing arts, citizenship, and volunteerism. Recognition for such activities is initiated by the staff and coordinated by the Counseling Office.

ATHLETIC AWARDS

Requirements for athletic awards are developed by each head coach with the approval of the Athletic Director. Student athletes interested in such awards should consult with the appropriate coach.

HOMEWORK

Homework will be assigned. Student grades will reflect the completion of all work, including outside assignments. Homework is also part of the student's preparation for the assessment tests and graduation.

COMPUTER TECHNOLOGY AND NETWORKS

The district provides internet services to its students. The district's internet system has a limited educational purpose, and has not been established as a public access service or a public forum. Student use of the district's computers, network and internet services/connection ("network") are governed by the following principles and guidelines, and the Student Code of Conduct. Users have a limited privacy expectation in the content of their personal files and records of their online activity while on the network.

Parents and students are advised that the Board may not be able to technologically limit access through the Board's internet connection to only those services that have been authorized for the purpose of instruction, study and research related to the curriculum. Because it serves as a gateway to any publicly available file server in the world, the internet opens classrooms and students to electronic information resources that have not been screened by educators for use by students of various ages. The district utilizes a technology protection measure, which is a specific technology that will protect against (e.g., filter or block) access to visual displays/depictions that are obscene, pornographic, and materials that are harmful to minors, as defined by the Children's Internet Protection Act. At the discretion of the Board or the Superintendent, the Technology Protection Measure may be configured to protect against access to other material considered inappropriate for students to access.

The district further utilizes software and/or hardware to monitor online activity of students to restrict access to child pornography and other material that is obscene, objectionable, inappropriate and/or harmful to minors. Nevertheless, parents/guardians are advised that a determined user may be able to gain access to services on the internet that are not authorized for educational purposes. In fact, it is impossible to guarantee students will not gain access through the internet to information and communications that they and/or their parents/guardians may find inappropriate, offensive, objectionable or controversial. Parents/Guardians assume risks by consenting to allow their child to participate in the use of the internet. Parents/Guardians of minors are responsible for setting and conveying the standards that their children should follow when using the internet.

[Back to Table of Contents](#)

The district supports and respects each family's right to decide whether to apply for independent student access to the internet.

Students are encouraged to use the "network" for educational purposes. Use of the network is a privilege, not a right. When using the network, students must conduct themselves in a responsible, efficient, ethical, and legal manner. Students are responsible for good behavior on the district's computers/network and the internet just as they are in classrooms, school hallways, and other school premises and school sponsored events. Communications on the internet are often public in nature. General school rules for behavior and communication apply. Unauthorized or inappropriate use of the network, including any violation of these rules, may result in cancellation of the privilege, disciplinary action consistent with the Student Code of Conduct, and/or civil or criminal liability. Prior to accessing the network, students must sign the Student network and internet Acceptable Use and Safety Agreement. Parent permission is required for minors. Parents are encouraged to discuss their values with their children so that students can make decisions regarding their use of the network that is in accord with their personal and family values, in addition to the Board's standards.

Students must complete a mandatory training session/program regarding the appropriate use of technology and online safety and security as specified in Board Policy [7540.03](#) before being permitted to access the network and/or being assigned an email address.

Smooth operation of the network relies upon users adhering to the following guidelines. The guidelines outlined below are not exhaustive but are provided so that users are aware of their general responsibilities.

- A. Students are responsible for their behavior and communication on the network.
- B. Students may only access the network by using their assigned network account. Use of another person's account/address/password is prohibited. Students may not allow other users to utilize their account/address/password. Students may not go beyond their authorized access.
- C. Students may not intentionally seek information on, obtain copies of, or modify files, data or passwords belonging to other users, or misrepresent other users on the network.
- D. Students may not use the network to engage in "hacking" or other illegal activities (e.g., software pirating; intellectual property violations; engaging in slander, libel, or harassment; threatening the life or safety of another; stalking; transmission of obscene materials or child pornography; fraud; sale of illegal substances and goods).
- E. Transmission of any material in violation of any State or Federal law or regulation, or Board policy is prohibited.
- F. Any use of the network for commercial purposes (e.g., purchasing or offering for sale personal products or services by students), advertising, or political lobbying is prohibited. This provision shall not limit the use of the network by students for the purpose of communicating with elected representatives or expressing views on political issues
- G. Use of the network to engage in cyberbullying is prohibited. "Cyberbullying" involves the use of information and communication technologies such as email, cell phone and pager text messages, instant messaging (IM), defamatory personal websites or social media accounts, and defamatory online personal polling websites, to support deliberate, repeated, and hostile behavior by an individual or group, that is intended to harm others."

Cyberbullying includes, but is not limited to the following:

1. posting slurs or rumors or other disparaging remarks about a student or school staff member on a web site or on weblog;
2. sending email or instant messages that are mean or threatening, or so numerous as to drive up the victim's cell phone bill;
3. using a camera phone to take and send embarrassing photographs/recordings of students or school staff members or post these images on video sharing sites such as Youtube;
4. posting misleading or fake photographs of students or school staff members on web sites.

To the extent permitted by the First Amendment, instances of cyber-bullying off school grounds that disrupt the school environment or interfere with the learning process will be considered violations of the Student Code of Conduct.

- H. Students are expected to abide by the following generally-accepted rules of network etiquette:
1. Be polite, courteous, and respectful in your messages to others. Use language appropriate to school situations in any communications made through the network. Do not use obscene, profane, lewd, vulgar, rude, inflammatory, sexually explicit, defamatory, threatening, abusive or disrespectful language in communications through the network (including, but not limited to, public messages, private messages, and material posted on web pages).
 2. Do not engage in personal attacks, including prejudicial or discriminatory attacks.
 3. Do not harass another person. Harassment is persistently acting in a manner that distresses or annoys another person. If a student is told by a person to stop sending him/her messages, the student must stop.
 4. Do not post information that, if acted upon, could cause damage or a danger of disruption.
 5. Never reveal names, addresses, phone numbers, or passwords of yourself or other students, family members, teachers, administrators, or other staff members while communicating on the internet. This prohibition includes, but is not limited to, disclosing personal identification information on commercial web sites.
 6. Do not transmit pictures or other information that could be used to establish your identity without prior approval of a teacher.
 7. Never agree to get together with someone you "meet" online without parent approval and participation.
 8. Check email frequently and diligently delete old mail on a regular basis from the personal mail directory to avoid excessive use of the electronic mail disk space.
 9. Students should promptly disclose to their teacher or other school employee any message they receive that is inappropriate or makes them feel uncomfortable, especially any email that contains pornography. Students should not delete such messages until instructed to do so by a staff member.
- I. Malicious use of the network to develop programs that harass other users or infiltrate a computer or computer system and/or damage the software components of a computer or computing system is prohibited. Students may not use the network in such a way that would disrupt its use by others. Students must avoid intentionally wasting limited resources. Students

- may not bypass or attempt to bypass the district's Technology Protection Measure. Students must immediately notify the teacher, principal, or staff member if they identify a possible security problem. Students should not go looking for security problems, because this may be construed as an unlawful attempt to gain access.
- J. All communications and information accessible via the internet should be assumed to be private property (i.e. copyrighted and/or trademarked). All copyright issues regarding software, information, and attributions/acknowledgement of authorship must be respected. Rules against plagiarism will be enforced.
 - K. Downloading of information onto the Board's hard drives is prohibited, without prior approval from the Office of the Superintendent. If a student transfers files from information services and electronic bulletin board services, the student must check the file with a virus-detection program before opening the file for use. Only public domain software may be downloaded. If a student transfers a file or software program that infects the network with a virus and causes damage, the student will be liable for any and all repair costs to make the network once again fully operational.
 - L. Students must secure prior approval from a teacher or a building administrator before joining a Listserv (electronic mailing lists) and should not post personal messages on bulletin boards or "Listservs."
 - M. Students are prohibited from accessing or participating in online "chat rooms" or other forms of direct electronic communication (e.g., instant messaging) (other than email) without prior approval from a teacher or a building administrator. All such authorized communications must comply with these guidelines.
 - N. Privacy in communication over the internet and the network is not guaranteed. In order to verify compliance with these guidelines, the Board reserves the right to monitor, review, and inspect any directories, files and/or message residing on or sent using the network. Messages relating to or in support of illegal activities will be reported to the appropriate authorities.
 - O. Use of the internet and any information procured from the internet is at the student's own risk. The Board makes no warranties of any kind, either express or implied, that the functions or the services provided by or through the network will be error-free or without defect. The Board is not responsible for any damage a user may suffer, including, but not limited to, loss of data, service interruptions, or exposure to inappropriate material or people. The Board is not responsible for the accuracy or quality of information obtained through the internet. Information (including text, graphics, audio, video, etc.) from internet sources used in student papers, reports, and projects should be cited the same as references to printed materials. The Board will not be responsible for financial obligations arising through the unauthorized use of the network. Students or parents of students will indemnify and hold the Board harmless from any losses sustained as the result of misuse of the network by the student. Use of the network by students will be limited to those students whose parents have signed a release of claims for damages against the Board.
 - P. File-sharing is strictly prohibited. Students are prohibited from downloading and/or installing file-sharing software or programs on the network.
 - Q. Students may not establish or access web-based email accounts on commercial services through the network (e.g., Gmail, Hotmail, Yahoo mail, etc.).

- R. Since there is no central authority on the internet, each site is responsible for its own users. Complaints received from other sites regarding any of the district's users will be fully investigated and disciplinary action will be taken as appropriate.
- S. Preservation of Resources and Priorities of Use: Computer resources are limited. Because space on disk drives and bandwidth across the lines which connect the network (both internally and externally) are limited, neither programs nor information may be stored on the system without the permission of the teacher or building administrator. Each student is permitted reasonable space to store email, web, and personal files. The Board reserves the right to require the purging of files in order to regain disk space. Students who require access to the network for class-or instruction-related activities have priority over other users. Students not using the network for class-related activities may be "bumped" by any student requiring access for class-or instruction-related purpose.
- T. Game playing is not permitted at any time.

STUDENT ASSESSMENT & ACADEMIC INTERVENTION SERVICES

The Board of Education shall assess student achievement and needs in all program areas in compliance with State law and the rules adopted by the State Board of Education. The purpose of such assessments will be to determine the progress of students and to assist them in attaining student performance objectives and the educational achievement goals of Forest Hills.

The Board shall administer the State-mandated tests (e.g., diagnostic assessments, and achievement tests) to students at the times designated by the State Board of Education. The district may, for medical reasons or other good cause, excuse a student from taking a state-mandated test on the date scheduled, but any such test shall be administered to such excused student not later than nine (9) days following the scheduled date within mandated test window. The Board shall annually report, not later than June 30th, the number of students who have not taken one (1) or more of the State-mandated tests to the State Board of Education.

The Board shall provide academic intervention services in pertinent subject areas to students who score below the proficient level on state assessments, or who do not demonstrate academic performance at their grade level based on the results of a diagnostic assessment.

At least annually, staff members will assess the academic achievement and learning needs of each student. Procedures for such assessments may include, but need not be limited to, teacher observation techniques, cumulative student records, student performance data collected through standard testing, and appropriate physical screening.

The Superintendent shall develop and present to the Board annually a program of testing that includes State-mandated tests (e.g., diagnostic assessments, and achievement tests).

"Achievement tests" means tests, aligned to academic content standards, designed to measure the skill in a specific content that is expected at the end of the designated grade.

"Diagnostic assessments" means the tests designed to measure student comprehension of academic content standards and mastery of related skills for the relevant subject area at each grade, kindergarten through ninth.

The Superintendent shall develop:

- A. procedures for the regular collection of student performance data;
- B. a plan for the design of intervention services to meet the instructional needs of individual students as determined by the results of diagnostic assessments; and
- C. procedures for using student performance data to evaluate the effectiveness of intervention services and, if necessary, to modify such services.

For any student who failed to demonstrate at least a score in the proficient range on an achievement test during the preceding school year, the Board shall provide appropriate intervention services in each such test areas, including intensive intervention required under R.C. 3313.608. This provision does not apply to any student receiving services pursuant to an individualized education program.

The Board shall require that:

- A. parents be informed of the testing program of the schools and of the special tests that are to be administered to their children;
- B. data regarding individual test scores be entered on the student's cumulative record, where it will be subject to the Board's student records policy;
- C. the aggregate results of each school-wide, program-wide, and district-wide test be made part of the public record.

Summer remediation services shall meet the following conditions:

- A. the remediation methods are based on reliable educational research
- B. testing will be conducted before and after students participate in the program to facilitate monitoring results of the remediation services
- C. the parents of participating student will be involved in programming decisions
- D. the services will be conducted in a school building or community center and not on an at-home basis

The Board shall keep records for each student including the following:

- A. a student data verification code in accordance with R.C. 3301.0714(D)(2)
- B. which tests are required and which are not
- C. which tests, required or not required, are taken and which are not taken at each test administration period
- D. score for each test taken, required or not
- E. whether the student attained the designated performance standard expected for each required test
- F. what if any tests must still be taken
- G. whether or not intervention must be provided, and
- H. for each test required for graduation, the date passed must be recorded on the student's transcript

When a student who has taken state-mandated tests in one (1) school leaves that school to enroll in another school, the school last attended shall provide, immediately upon request by a school official, all applicable records set forth above.

For each student required to be offered intervention services, the Board shall involve the student's parent or guardian and classroom teacher in developing the intervention strategy, and shall offer to the parent or guardian the opportunity to be involved in the intervention services.

During the school year following the year in which the tests prescribed by R.C. 3301.0710(A)(1) are administered to any student, the Board shall provide intervention services, commensurate with the student's test performance, including any intensive intervention required under R.C. 3313.608, in any skill in which the student failed to demonstrate at least a score of proficient on a State-mandated test, or whose diagnostic assessments show they are failing to make satisfactory progress toward attaining the academic standards for their grade level.

Except as authorized by State law, the Board shall not use any student's failure to attain a specified score on any State-mandated test as a factor in any decision to deny the student promotion to a higher grade level.

All identified students with disabilities in Forest Hills shall be considered for participation in the State-mandated testing. The IEP Team shall determine the extent of participation by the student with disabilities. Accordingly, the student's IEP shall require that s/he:

- A. take the prescribed test in the same manner as other students;
- B. take the prescribed test with accommodations appropriate for his/her disability; or
- C. take an alternate assessment that has been approved by the State Department of Education.

To the extent possible, and in accordance with law, a student with disabilities shall not be excused from taking a required assessment unless no reasonable accommodation can be made to enable the student to take the assessment.

The Superintendent shall implement administrative guidelines that comply with the State Department's regulations with regard to the administration of the State-mandated tests, including the reporting of results.

Program evaluations will be reviewed and updated every five (5) years. A schedule for such will be developed and implemented by the Superintendent.

After July 1, 2017, no student will spend more than two percent (2%) of the school year taking state assessments, including the Ohio graduation tests, college and work ready assessment systems and any district-wide assessment for all students in a specified subject area or grade level. Students will not spend more than one percent (1%) of the school year on diagnostic or practice assessments to prepare for the above assessments. Students with disabilities are exempt from this requirement, as are related diagnostic assessments for students who failed the English language arts achievement assessment, substitute examinations, or examinations to identify a gifted student.

This policy shall be reviewed and updated annually.

See Policy [2623.02](#) – Third Grade Reading Guarantee

Revised 2/25/13

Unless exempted, each student must earn the required minimum total number of points on the End of Course Ohio's State Tests. The tests will be administered at least twice per year until the student earns the needed points. Students are only required to retake those tests needed to earn the needed points. While the school

[Back to Table of Contents](#)

district does schedule make-up dates for testing, students should avoid unnecessary absences. Additional group tests are given to students to monitor progress and determine educational mastery levels. These tests help the staff determine instructional needs.

Classroom tests are given to assess student progress and assign grades. These are selected or prepared by teachers to assess student achievement on specific objectives.

Career and interest surveys may be given to identify particular areas of student interests or talent. These are often given by the guidance staff.

College entrance testing information can be obtained from the Counseling Office.

SCHOOL CHOICE OPTIONS

The Board of Education acknowledges that the Federal No Child Left Behind Act of 2001 provides that the parents/guardians of students enrolled in a Title I school the first year following the building's identification as being in "school Improvement", have the right to transfer their children to another school in the district, provided there is a school that provides instruction at the student's' grade level(s) and such school has not been identified as being in the process of school improvement, corrective action, or restructuring. If there is not another school in the district offering instruction at the student's' grade level(s) that has not been identified as needing improvement, the Superintendent shall contact neighboring districts and request that they permit students to transfer to a school in one of those districts. The Superintendent shall also offer Supplemental Educational Services to students in any school no later than the first year following the building's identification as being in "school Improvement," regardless of whether a transfer option is available.

Additionally, students attending a "persistently dangerous" school, as defined by state law have the right to transfer to another "safe" school in the district. If there is not another "safe" school in the district providing instruction at the student's' grade level(s), the Superintendent shall contact neighboring districts and request that they permit students to transfer to a school in one of those districts.

Furthermore, a student who is a victim of a "violent crime" on school property also has the right to transfer to another school. If there is not another school in the district providing instruction at the student's' grade level, the Superintendent shall contact neighboring districts and request that they permit that student to transfer to a school in one of those districts providing instruction at the student's' grade level.

The Board of Education authorizes such transfers in accordance with [Board Policy AG 5113.02](#).

Children who transfer in accordance with this policy will be permitted to remain at the school of transfer until completing the highest grade at the school.

Revised 12/19/11

SECTION III - STUDENT ACTIVITIES

DISTRICT SCHOOL-SPONSORED CLUBS AND ACTIVITIES

The Board of Education believes that the goals and objectives of Forest Hills are best achieved by a diversity of learning experiences, including those that are not conducted in a regular classroom but are directly related to the curriculum.

The purpose of curricular-related activities shall be to enable students to explore a wider range of individual interests than may be available in the FHSD courses of study but are still directly related to accomplishing the educational outcomes for students as adopted by the Board in [Policy 2131](#)

For purposes of this policy, curricular-related activities are defined as those activities in which:

- A. the subject matter is actually taught or will be taught in a regularly offered course;
- B. the subject matter concerns the District's composite courses of study;
- C. participation is required for a particular course;
- D. participation results in academic credit.

No curricular-related activity shall be considered to be under the sponsorship of this Board unless it meets one or more of the criteria stated above and has been approved by the Superintendent.

Such activities, along with extra-curricular activities (not directly related to courses of study), may be conducted on or off school premises by clubs, associations, and organizations of students sponsored by the Board and directed by a staff advisor.

The Board shall allow non district-sponsored, student clubs and activities during non instructional time, in accordance with the provisions in [Policy 5730](#) -- Equal Access For Non District-sponsored, Student Clubs and Activities.

Non Curricular student activities that are initiated by parents or other members of the community may be allowed under the provisions of [Policy 5730](#) - Use of District Facilities. The Board, however will not:

- A. assume any responsibility for the planning, conducting, or evaluating of such activities;
- B. provide any funds or other resources; allow any member of the District's staff to assist in the planning, conducting, or evaluating of such
- C. have an activity during the hours s/he is functioning as a member of the staff.

Students who are educated at home or enrolled in nonpublic schools are eligible to participate in accordance with [Policy 9270](#). Students attending community or STEM schools may participate in extra-curricular activities in accordance with [Policy 2430.02](#).

Whenever a student becomes a member of a District-established student group or national organization such as National Honor Society, in order to remain a member, s/he must continue to meet all of the eligibility criteria and abide by the principles and practices established by the group or organization.

[Back to Table of Contents](#)

The Athletic Director and/or Principal shall require that each student athlete, who participates in either an interscholastic or intramural sport, submits Form 2431 F1 and Form 2431 F2 signed by the student and his/her parent or guardian, or by a person having care or charge of the student, affirming that each has received the Ohio Department of Health's concussion and head injury information sheet. The forms shall be signed and submitted on an annual basis. No student may practice or compete in interscholastic or intramural athletics until Form 2431 F1 and Form 2431 F2 are received by the Athletic Director or Principal. No student will be denied the opportunity to participate in interscholastic athletics offered by a school in the District because the student has or is participating in college credit plus program as long as the student fulfills all academic, nonacademic and financial requirements.

Students shall be fully informed of the curricular-related and extra-curricular activities available to them and of the eligibility standards established for participation in these activities. Students will be further informed that participation in these activities is a privilege and not a right, and that they may be prohibited from all or part of their participation in such activities by authorized school personnel without further notice, hearing and/or appeal rights. District-sponsored activities shall be available to all students who elect to participate and who meet eligibility standards.

The Superintendent shall prepare administrative guidelines to implement a program of curricular-related clubs and activities and of extra-curricular activities. Such guidelines should ensure that the needs and interests of the students are properly assessed and procedures are established for continuing evaluation of each club and activity.

PARTICIPATION OF COMMUNITY/STEM SCHOOL STUDENTS IN EXTRA-CURRICULAR ACTIVITIES

A student enrolled in a community school established under R.C. Chapter 3314 or in a science, technology, engineering, and mathematics ("STEM") school established under Chapter 3326 and entitled to attend school in the District under R.C. 3313.64 or R.C. 3313.65, shall be provided with the opportunity to participate in any extra-curricular activities offered by the District.

The eligible community or STEM school student may participate in any extra-curricular activities offered by the school building to which the student would otherwise be assigned provided the extra-curricular activity is not offered by the STEM school. In the event the District operates more than one (1) school building at the student's grade level, the student may participate in those extra-curricular activities offered by the school building to which the student would otherwise be assigned by the Superintendent in accordance with R.C. 3319.01.

Eligibility Requirements

In order to participate in any extra-curricular activity, an eligible community or STEM school student must be of the appropriate age and grade level, as determined by the Superintendent. The student will also be subject to the same eligibility requirements (i.e., academic and nonacademic eligibility standards and financial requirements) applied to all other participants. No eligible community or STEM school student will be charged

[Back to Table of Contents](#)

any fees in excess of those fees charged to other students for participation in the same extra-curricular activity. Further, the District will not impose any additional rules upon a student participating under this policy, if those rules do not apply to other students participating in the same extra-curricular activity. No student will be denied the opportunity to participate in interscholastic athletics offered by a school in the District because the student has or is participating in college credit plus program as long as the student fulfills all academic, nonacademic and financial requirements.

ACADEMIC ELIGIBILITY

Since the policy of the Board of Education is to maintain a co-curricular activities program sufficiently varied to meet the wide range of vocational, recreational, social, and cultural needs and interests of the students, all students should be urged to join at least one club or activity.

CLUBS AND ACTIVITIES

ELIGIBILITY REQUIREMENTS

All students who participate in interscholastic athletics shall meet the eligibility requirements described in the Athletic Handbook. SCHEDULE CONFLICTS

Many students have multiple talents and interests they wish to develop or pursue through participation in district-sponsored activities and groups. Since the district's policy is to encourage such participation, the following guidelines have been established for dealing with potential schedule conflicts a student could experience when participating in more than one activity.

- A. At the beginning of each semester or season, each staff member in charge of a credit course, co-curricular, or extra-curricular activity is to prepare a schedule for any practices, performances, or other after-school obligations involved in participation.

This information is to be sent to the school office.

- C. When the activity or program begins, the students are to be informed of the following:
 - 1. If a student encounters a previously-unforeseen conflict during the semester or season, s/he should inform both staff-members-in-charge as soon as possible in order to increase the likelihood that an accommodation can be worked out.
 - 2. If, during the year, an ad-hoc situation develops which creates a conflict in schedule for a student, s/he should discuss the

conflict with activity sponsors who, in turn, will work with the staff-members-in-charge to try to reach an accommodation that is most advantageous to the student and least disadvantageous for the activities involved.

3. Under no circumstances is the student to be intimidated while making a decision by threats of penalties or future consequences.

INTERSCHOLASTIC ATHLETICS

Philosophy

The Forest Hills School District Board of Education recognizes the value of interscholastic athletics and extra-curricular activities in the educational process and the values that young people develop when they have the opportunity to participate in activities outside of the traditional classroom. The Board believes that by promoting good sportsmanship and participation in athletic and extra-curricular activities at all levels, the school instills pride, reinforces sound value structure, and enhances the students' self-image, as well as the image of the school district and the community.

Voluntary participants and responsible adults involved in Board-approved interscholastic athletic, co-curricular and extra-curricular activities are expected to demonstrate the same level of responsibility and behavior at practice and competitions as is expected in the classroom. The Board further encourages the development and promotion of sportsmanship, ethics, and integrity in all phases of the educational process and in all segments of the community, including administrators, participants, adult supervisors, parents, spirit groups, and support/booster groups.

Purpose

The purpose of this Code is to give students in grades 7 through 12 participating in interscholastic athletics, co-curricular and/or extra-curricular activities and other persons a guide to the operation of these activities in Forest Hills School District. Students educated at home or enrolled in a nonpublic school who are permitted to participate on a District interscholastic team must fulfill the same academic, nonacademic, and financial requirements as any other participant. See [Policy 9270](#).

Athletic, Extra-Curricular and Co-Curricular Rules and Regulations

[Back to Table of Contents](#)

Participation in athletics, co-curricular and extra-curricular activities with the Forest Hills Local School District is not a right but a privilege which may be regulated by the Board of Education. It is required that students participating in activities become familiar with and understand the rules and regulations required of students participating in activities within the Forest Hills School District. This Athletic, Extra-Curricular and Co-Curricular Code of Conduct, as well as the Student Code of Conduct, shall apply to the student during the school year, to include breaks, holidays and weekends, and during the time of officially recognized summer activities regardless of whether or not the student is on school property, attending a school function or activity, on private property, or at a private party. For example, the Athletic, Extra-Curricular and Co-Curricular Code of Conduct, and the Student Code of Conduct, apply to football players on the first day of practice, which normally starts at the end of summer and before the academic school year begins. However, the Athletic, Extra-Curricular and Co-Curricular Code of Conduct does not apply to a basketball player who has never participated in athletics, co-curricular and/or extra-curricular activities until the first day of basketball practice. The Student Code of Conduct would, however, begin on the first day of the school year. Furthermore, this Code of Conduct and the Student Code of Conduct will continue to apply to students after their participation in athletics, co-curricular and extra-curricular activities for the remainder of the school year. Additionally, individual advisors'/coaches' rules shall govern a student's conduct during the season.

The Student Code of Conduct and the Athletic, Extra-Curricular and Co-Curricular Code of Conduct shall be posted in a central location in each school building and on the school web site.

It must be understood by all students and their parents/guardians that a condition to participating in interscholastic athletics, co-curricular activities and extra-curricular activities in the Forest Hills Local School District requires a commitment to follow the rules, regulations, policies and procedures established by the District and its coaches/directors for the implementation of its programs. No student may practice or compete in interscholastic athletics until the student submits a form signed by his/her parent or guardian, or by a person having care or charge of the student, affirming that each has received a concussion and head injury information sheet as prepared by the Ohio Department of Health. These forms must be returned to the coach or director prior to the student's participation in the activity.

STUDENT ATTENDANCE AT SCHOOL EVENTS

Students are encouraged to attend as many after school events as possible, without interfering with their school work and home activities. Enthusiastic spectators help to build school spirit and encourage those students participating in the event. It is strongly advised that students attending evening events as nonparticipants be accompanied by a parent or adult chaperone. The Board is not responsible for supervising unaccompanied students nor will it be responsible for students who arrive without an adult chaperone.

PUBLIC ATTENDANCE AT SCHOOL EVENTS

The Board of Education welcomes the attendance of members of the community at athletic and other public events held by the schools in the district, but the Board also acknowledges its duty to maintain order and preserve the facilities of the district during the conduct of such events.

The Board holds the legal authority to bar the attendance of or remove any person whose conduct may constitute a disruption at a school event. School administrators have the authority to call law enforcement officials if a person violates posted regulations or does not leave school property when requested. They are also authorized to use detectors and other devices to better ensure the safety and well-being of participants and visitors.

Upon request to the principal, the district shall make reasonable accommodation for a disabled person to be able to attend public district activities.

The Board is aware of the increasing desire of many parents and other members of an audience to use "camcorders" and other audio/visual devices at school events. It has no objection, providing their use neither interferes with the conduct of the particular activity nor impinges on the enjoyment of the event by other members of the audience. If the performance is of copyrighted material, recording can be made if the appropriate license authorizing such recordings has been secured in advance by the district. If the performance is of copyrighted material and the necessary license has not been secured in advance by the district, the audience shall be advised before the performance begins that audio and/or video recordings that will be re-broadcast or distributed in any way, such as posting on the internet, are prohibited.

The Board authorizes the Superintendent to establish rules and procedures governing the use of non district audio/visual devices and equipment at any district-sponsored event or activity, particularly athletic events, dramatic presentations, and graduation ceremonies. Such rules are to be distributed in such a manner that members of the audience who wish to record the event are aware of the rules early enough to make proper arrangements to obtain their recordings without causing delay or disruption to the activity.

Any person or organization seeking to film students or a school activity which is not a public event shall obtain prior permission from the Superintendent.

When a student of compulsory school age is absent from school with or without legitimate excuse for thirty-eight (38) or more hours in one school month, or sixty-five (65) or more hours in a school year, the attendance officer shall notify the child's parent or guardian of the child's absences, in writing, within seven (7) school days after the date of the absence that triggered the notice requirement. At the same time written notice is given, any appropriate intervention action listed herein may be taken.

A student will be considered habitually truant if the student is of compulsory school age and absent without a legitimate excuse for thirty (30) or more consecutive hours, for forty-two (42) or more hours in one (1) school month, or for seventy-two (72) or more hours in one (1) school year.

Legitimate excuses for the absence of a student who is otherwise habitually truant include but are not limited to:

- A. the student was enrolled in another school district;
- B. the student was excused from attendance in accordance with R.C 3321.04; or
- C. the student has received an age and schooling certificate.

Absence Intervention Team

To the extent required by law as determined on an annual basis, within ten (10) days of a student becoming habitually truant, the Principal shall assign the student to an absence intervention team.

Within fourteen (14) school days after the assignment of a student to an absence intervention team, the team shall develop an intervention plan for that student in an effort to reduce or eliminate further absences. Each intervention plan shall vary based on the individual needs of the student, but the plan shall state that the attendance officer shall file a complaint not later than sixty-one (61) days after the date the plan was implemented, if the child has refused to participate in, or failed to make satisfactory progress on, the intervention plan. Within seven (7) school days after the development of the plan, reasonable efforts shall be made to provide the student's parent/guardian/custodian, with written notice of the plan.

Each absence intervention team may vary based on the needs of each individual student but shall include a representative from the child's building, another representative from the child's building who knows the child, and the child's parent or parent's designee, or the child's guardian, custodian, guardian ad litem, or temporary

custodian. The team also may include a school psychologist, counselor, social worker, or representative of a public or nonprofit agency designed to assist students and their families in reducing absences.

The members of the absence intervention team shall be selected within seven (7) school days of the student meeting the habitually truant threshold. Within the same period of seven (7) school days, the Principal shall make at least three meaningful, good faith attempts to secure the participation of the student's parent/guardian/custodian, guardian ad litem, or temporary custodian on that team. A good faith attempt to secure the participation of the parent shall include, but not be limited to, contacting (or attempting to contact) the parent by telephone, email, or regular mail. If the student's parent responds to any of those attempts, but is unable to participate for any reason, the Principal shall inform the parent of the parent's right to appear by designee. If seven (7) school days elapse and the student's parent/guardian/custodian, guardian ad litem, or temporary custodian fails to respond to the attempts to secure participation, the attendance officer shall investigate whether the failure to respond triggers mandatory abuse or neglect reporting to the public children services agency. At the same time, the absence intervention team shall continue to develop an intervention plan for the child notwithstanding the absence of the child's parent/guardian/custodian, guardian ad litem, or temporary custodian.

In order to address the attendance practices of a student who is habitually truant, the intervention team may, as part of an intervention plan, take any of the following intervention actions:

- A. provide counseling to the student
- B. request or require the student's parent to attend a parental involvement program
- C. request or require a parent to attend a truancy prevention mediation program
- D. notify the Registrar of Motor Vehicles of the student's absences
- E. take appropriate legal action

In the event that a student becomes habitually truant within twenty-one (21) school days prior to the last day of instruction of a school year, the Principal may, in his/her discretion, assign a staff member to work with the child's parent/guardian/custodian, guardian ad litem, or temporary custodian to develop an absence intervention plan during the summer.

The absence intervention process shall commence upon the first day of instruction of the next school year.

Reporting Requirements

- A. The attendance officer shall file a complaint in the juvenile court against a student on the sixty-first (61st) day after the implementation of an absence intervention plan or other intervention strategies, provided that all of the following apply:
- B. The student is habitually truant.
- C. The school district or school has made meaningful attempts to re-engage the student through the absence intervention plan, other intervention strategies, and any offered alternatives to adjudication, if applicable.

If the student, at any time during the implementation phase of the absence intervention plan or other intervention strategies, is absent without legitimate excuse for thirty (30) or more consecutive hours or forty-two (42) or more hours in one school month, the attendance officer shall file a complaint in juvenile court

against that student, unless the absence intervention team has determined that the student has made substantial progress on the absence intervention plan.

In the event that the sixty-first (61st) day after the implementation of the absence intervention plan or other intervention strategies falls on a day during the summer months, the absence intervention team may extend the implementation of the plan and delay the filing of the complaint for an additional thirty (30) days from the first day of instruction of the next school year.

The Superintendent is authorized to establish an educational program for parents of truant students which is designed to encourage parents to ensure that their children attend school regularly. Any parent who does not complete the program is to be reported to law enforcement authorities for parental education neglect, a fourth class misdemeanor if found guilty.

Whenever any student of compulsory school age has sixty (60) consecutive hours in a single month or a total of ninety (90) hours of unexcused absence from school during the school year, s/he will be considered habitually absent. The Board authorizes the Superintendent to inform the student and his/her parents, guardian, or custodian of the record of absences without a legitimate excuse as well as the District's intent to notify the Registrar of Motor Vehicles, if appropriate, and the Judge of the Juvenile Court of the student's unexcused absences.

If a student who is habitually truant violates the order of a juvenile court regarding the student's prior adjudication as an unruly child for being a habitual truant, s/he may further be adjudicated as a delinquent child.

The District shall report to the Ohio Department of Education, as soon as practicable, and in a format and manner determined by the Department, any of the following occurrences:

- A. when a notice that a student has been absent with or without legitimate excuse for thirty-eight (38) or more hours in one (1) school month, or sixty-five (65) or more hours in a school year is submitted to a parent/guardian/or custodian;
- B. when a child of compulsory school age has been absent without legitimate excuse from the public school the child is supposed to attend for thirty (30) or more consecutive hours, forty-two (42) or more hours in one school month, or seventy-two (72) or more hours in a school year;
- C. when a child of compulsory school age who has been adjudicated an unruly child for being an habitual truant violates the court order regarding that adjudication;
- D. when an absence intervention plan has been implemented for a child under this policy.

This policy was developed after consultation with the judge of the juvenile court of Hamilton County, with the parents, guardians, or other persons having care of the students attending school in the district, and with appropriate State and local agencies.

Absence reporting

- A parent/guardian phone call received by the attendance office, on each day of the student's absence, for any of the acceptable reasons listed below, is sufficient to excuse the child's absence up to the tenth absence yearly.
- Subsequently, after the tenth absence, the parent/guardian must provide written documentation from a treating physician, nurse practitioner, physician assistant, or relevant third party, stating the day(s) absent and reason for such absence*.
- Student absences in excess of 10 days will be recorded as unexcused absences unless a doctor's note or third party documentation is presented to attendance officials for each additional absence. Without a doctor's note or third party documentation, truancy charges can be brought and charged to the parent and or student.

Prolonged consecutive **excused absences for one illness may count as one absence towards the ten (10) times parents can call school to report an absence*

The Board considers the following factors to be reasonable excuses for time missed at school:

- A. personal illness (a written physician's statement verifying the illness may be required)
- B. illness in the family necessitating the presence of the child
- C. quarantine of the home
- D. death in the family
- E. college visits as approved by the building principal
- F. necessary work at home due to absence or incapacity of parent(s)/guardian(s)
- G. observation or celebration of a bona fide religious holiday
- H. absence during the school day for professional appointments
- I. emergency or other set of circumstances as determined by the Superintendent
- J. medically necessary leave for a pregnant student in accordance with [Policy 5751](#)
- K. out-of-state travel (up to a maximum twenty-four (24) hours per school year that the student's school is open for instruction to participate in a District-approved enrichment or extra-curricular activity. Any classroom assignment missed due to the absence shall be completed by the student. If the student will be absent for twenty-four (24) or more consecutive hours that the student's school is open for instruction, a classroom teacher shall accompany the student during the travel period to provide the student with instructional assistance.
- L. such good cause as may be acceptable to the Superintendent

Encouraging Attendance

Promoting and fostering desired student attendance habits requires a commitment from the administration, faculty, and parents. No single individual or group can - in and of itself - successfully accomplish this task. A professional staff member's responsibility must include, but not be limited to: speaking frequently of the importance of students being in class, on time, ready to participate;

[Back to Table of Contents](#)

- A. providing meaningful learning experiences every day; Therefore, a student who is absent from any given class period would be missing a significant component of the course.
- B. keeping accurate attendance records (excused vs. unexcused);
- C. requiring an admit slip from a student when s/he returns from an absence and invoking a consequence if s/he does not have one;
- D. incorporating defined, daily participation as part of the teaching/learning process and each grading period
- E. requiring students to make up missed quizzes, tests, and other pertinent assignments before or after the regular school day and not permitting students to use instructional time to do make-up work.

Students Leaving School During School Day

- A. No staff member shall permit or cause any student to leave the school prior to the regular hour of dismissal except with the knowledge and approval of the principal and with the knowledge and approval of the student's parents.
- B. No student will be released to any government agency without proper warrant or written parental permission except in the event of an emergency as determined by the Principal.
- C. Nagel students must be signed out in main office by a parent/guardian as noted in student information screen in DASL. Adult must produce ID to sign our student

Make-Up Opportunities

Students will be given the opportunity for making up work missed due to approved absences. The length of time for completion of make-up work shall be commensurate with the length of the absence.

Tardiness

Each student is expected to be in his/her assigned location throughout the school day. If a student is late arriving at school, s/he must report to the school office before going to his/her first assigned location.

DRESS AND GROOMING

The Board of Education recognizes that each student's mode of dress and grooming is a manifestation of personal style and individual preference. The Board will not interfere with the right of students and their parents to make decisions regarding their appearance, except when their choices interfere with the educational program of the schools. The Board authorizes the Superintendent to establish a reasonable dress code in order to promote a safe and healthy school setting and enhance the educational environment. The dress code shall be incorporated into the Student Code of Conduct.

Accordingly, the Superintendent shall establish such grooming guidelines as are necessary to promote discipline, maintain order, secure the safety of students, and provide a healthy environment conducive to academic purposes. Such guidelines shall prohibit student dress or grooming practices which:

- A. present a hazard to the health or safety of the student himself/herself or to others in the school;

[Back to Table of Contents](#)

- B. materially interfere with school work, create disorder, or disrupt the educational program;
- C. prevent the student from achieving his/her own educational objectives because of blocked vision or restricted movement.

Such guidelines shall establish the dress requirements for members of the athletic teams, bands, and other school groups when representing the district at a public event.

The Superintendent shall develop administrative guidelines to implement this policy which:

- A. designate the principal as the arbiter of student dress and grooming in his/her building;
- B. invite the participation of staff, parents, and students in the preparation of a dress code which may specify prescribed dress and grooming practices, but may not amplify the rationale for prohibition established by Board policy;
- C. encourage staff members to demonstrate by example and precept wholesome attitudes toward neatness, cleanliness, propriety, modesty, and good sense in attire and appearance.

Students who violate the foregoing rules will not be admitted to class and may be suspended from school.

Students should consider the following questions when dressing for school:

- Does my clothing expose too much? (Answer should be “No”)
- Does my clothing advertise something that is prohibited to minors? (Answer should be “No”)
- Are there obscene, profane, drug-related, gang-related, or inflammatory messages on my clothing? (Answer should be “No”)
- Am I dressed appropriately for the weather? (Answer should be “Yes”)

Dress Code

The Board of Education recognizes that each student's mode of dress and grooming is a manifestation of personal style and individual preference. The Board will not interfere with the right of students and their parents to make decisions regarding their appearance, except when their choices interfere with the educational program of the schools. The Board authorizes the Superintendent to establish a reasonable dress code in order to promote a safe and healthy school setting and enhance the educational environment. The dress code shall be incorporated into the Student Code of Conduct.

Accordingly, the Superintendent shall establish such grooming guidelines as are necessary to promote discipline, maintain order, secure the safety of students, and provide a healthy environment conducive to academic purposes. Such guidelines shall prohibit student dress or grooming practices which:

- A. present a hazard to the health or safety of the student himself/herself or to others in the school;
- B. materially interfere with school work, create disorder, or disrupt the educational program;
- C. prevent the student from achieving his/her own educational objectives because of blocked

vision or restricted movement.

Such guidelines shall establish the dress requirements for members of the athletic teams, bands, and other school groups when representing the district at a public event.

The Superintendent shall develop administrative guidelines to implement this policy which:

- A. designate the principal as the arbiter of student dress and grooming in his/her building;
- B. invite the participation of staff, parents, and students in the preparation of a dress code which may specify prescribed dress and grooming practices, but may not amplify the rationale for prohibition established by Board policy;
- C. encourage staff members to demonstrate by example and precept wholesome attitudes toward neatness, cleanliness, propriety, modesty, and good sense in attire and appearance.

Students who violate the foregoing rules will not be admitted to class and may be suspended from school. Appropriate dress and grooming is expected in Forest Hills schools. Student dress and grooming should reflect a sensitivity and respect for others. There is considerable evidence that better dress influences student attitude and academic performance. The dress code is as follows:

1. Clothing worn by students is expected to be clean, neat, modest and appropriate for school.
2. Dress and grooming are expected to be free of distractions to the education environment, and must not endanger the health and safety of students and staff.
3. Garment specifications:
 - a. Upper body garments: Shirts and tops may not expose the torso, midriff or undergarments when the student is standing, sitting, raising his/her hand or bending over.
 - b. Lower body garments: Students, pants are to be worn at the waist level. The appropriate length for shorts, skirts and/or dresses must be worn. No portion of the buttocks or undergarments should be exposed when the student sits, stands, raises his/her hand or bends over.
4. The following items are not permitted:
 - a. clothing or accessories with reference to alcohol, drugs, and/or tobacco
 - b. clothing or accessories with suggestive, profane or lewd symbols, slogans and/or pictures gang or other groups without permission of the administration.
 - c. hoods, hats, caps, bandanas or other form of head covering
 - d. Halters, midriff tops, crop tops, spaghetti strap tops, open mesh garments, garments with open sides which expose skin or undergarments, and muscle tops (oversized armholes).

Students must place hats/caps in their locker prior to the beginning of the school day. Items not placed in lockers will be taken away by school personnel and kept until the end of the school day. Repeated violations will result in disciplinary action. Students violating the dress code will be subject to the full range of discipline considerations, including immediate removal from school, suspension and expulsion as determined by the administrative staff. Students who are representing [the school] at an official function or public event may be required to follow specific dress requirements. Usually, this applies to athletic teams, cheerleaders, bands, and other such groups.

[Back to Table of Contents](#)

GANGS

Gangs that initiate, advocate or promote activities that threaten the safety or well-being of persons or that are disruptive to the school environment will not be tolerated. Incidents involving initiations, hazing, intimidations or related activities that are likely to cause harm or personal degradation are prohibited. Students wearing, carrying or displaying gang paraphernalia or exhibiting behaviors or gestures that symbolize gang membership or causing and/or participating in activities that are designed to intimidate another student will be disciplined. Prohibited gang paraphernalia will be specifically identified and posted by the principal.

CARE OF PROPERTY

Students are responsible for the care of their own personal property. The school is not responsible for personal property. Valuables such as jewelry or irreplaceable items should not be brought to school.

Damage to or loss of school equipment and facilities wastes taxpayers' money and undermines the school program. Therefore, if a student damages or loses school property, the student and/or his/her parents will be required to pay for the replacement or repair. If the damage or loss was intentional, the student will be subject to discipline according to the Student Discipline Code.

BULLYING AND OTHER FORMS OF AGGRESSIVE BEHAVIOR

It is the policy of the district to provide a safe and nurturing educational environment for all of its students. This policy protects all students from bullying/aggressive behavior regardless of the subject matter or motivation for such impermissible behavior.

Bullying or other aggressive behavior toward a student, whether by other students, staff, or third parties, including Board members, parents, guests, contractors, vendors, and volunteers, is strictly prohibited. This prohibition includes written, physical, verbal, and psychological abuse, and violence within a dating relationship, including hazing, gestures, comments, threats, or actions to a student, which cause or threaten to cause bodily harm, reasonable fear for personal safety or personal degradation. Bullying behavior is distinct from behavior in which a conflict may be present between two or more parties. Conflicts, differences of opinion, and other forms of disagreement occur in school settings. The district desires a civil resolution to such conflicts but such conflicts are not automatically synonymous with bullying behavior.

Demonstration of appropriate behavior, treating others with civility and respect, and refusing to tolerate harassment or bullying is expected of administrators, faculty, staff, and volunteers to provide positive examples for student behavior.

This policy applies to all activities in the district, including activities on school property, in a school vehicle, and those occurring off school property if the student or employee is at any school-sponsored, school-approved or school-related activity or function, such as field trips or athletic events where students are under the school's control, or where an employee is engaged in school business. Misconduct occurring outside of school may also be disciplined if it interferes with the school environment.

[Back to Table of Contents](#)

"Bullying" is any gesture or written, verbal, graphic, or physical act (including electronically transmitted acts – i.e. internet, telephone or cell phone, personal digital assistant, or wireless hand-held device) that, without regard to its subject matter or motivating animus, is intended or that a reasonable person would know is likely to harm one or more students either directly or indirectly by doing any of the following:

- A. substantially interfering with educational opportunities, benefits, or programs of one or more students;
- B. adversely affecting the ability of a student to participate in or benefit from the school district's educational programs or activities by placing the student in reasonable fear of physical harm or by causing substantial emotional distress;
- C. having an actual and substantial detrimental effect on a student's physical or mental health; and/or
- D. causing substantial disruption in, or substantial interference with, the orderly operation of the school;
- E. violence within a dating relationship.

Any student who believes s/he has been or is the victim of bullying, hazing, or other aggressive behavior should immediately report the situation to the building principal or assistant principal, or the Superintendent. The student may also report concerns to a teacher or counselor who will be responsible for notifying the appropriate administrator. Complaints against the building principal should be filed with the Superintendent. Complaints against the Superintendent should be filed with the Board President.

Every student is encouraged, and every staff member is required, to report any situation that they believe to be aggressive behavior directed toward a student. Reports shall be made to those identified above. Reports may be made anonymously, but formal disciplinary action may not be taken solely on the basis of an anonymous report.

The Principal (or other administrator as designated) shall promptly investigate and document all complaints about bullying, aggressive or other behavior that may violate this policy. The investigation must be completed as promptly as the circumstances permit after a report or complaint is made.

If the investigation finds an instance of bullying or aggressive behavior has occurred, it will result in prompt and appropriate remedial action. This may include up to expulsion for students, up to discharge for employees, exclusion for parents, guests, volunteers, and contractors, and removal from any official position and/or a request to resign for Board members. Individuals may also be referred to law enforcement or other appropriate officials.

If, during an investigation of a reported act of harassment, intimidation and/or bullying/cyberbullying, the Principal or appropriate administrator believes that the reported misconduct may have created a hostile learning environment and may have constituted unlawful discriminatory harassment based on a Protected Class, the Principal will report the act of bullying and/or harassment to one of the Anti-Harassment Compliance Officers

so that it may be investigated in accordance with the procedures set forth in [Board Policy 5517 - Anti-Harassment](#).

The individual responsible for conducting the investigation shall document all reported incidents and report all verified incidents of bullying, aggressive or other prohibited behavior, as well as any remedial action taken, including disciplinary actions and referrals, to the Superintendent. The Superintendent shall submit a compiled report to the Board on an annual basis.

Retaliation or false allegations against any person who reports, is thought to have reported, files a complaint, participates in an investigation or inquiry concerning allegations of bullying or aggressive behavior (as a witness or otherwise), or is the target of the bullying or aggressive behavior being investigated, is prohibited and will not be tolerated. Such retaliation shall be considered a serious violation of Board policy, independent of whether a complaint of bullying is substantiated. Suspected retaliation should be reported in the same manner as bullying/aggressive behavior.

Making intentionally false reports about bullying/aggressive behavior for the purpose of getting someone in trouble is similarly prohibited and will not be tolerated. Retaliation and intentionally false reports may result in disciplinary action as indicated above.

The following definitions are provided for guidance only. If a student or other individual believes there has been bullying, hazing, harassment or other aggressive behavior, regardless of whether it fits a particular definition, s/he should report it immediately and allow the administration to determine the appropriate course of action.

"Aggressive behavior" is defined as inappropriate conduct that is repeated enough, or serious enough, to negatively impact a student's educational, physical, or emotional well-being. Such behavior includes, for example, bullying, hazing, stalking, intimidation, menacing, coercion, name-calling, taunting, making threats, and hitting/pushing/shoving.

"Bullying" is defined as any gesture or written, verbal, graphic, or physical act (including electronically transmitted acts – i.e., internet, telephone or cell phone, personal digital assistant (PDS), or wireless hand held device) that without regard to its subject matter or motivating animus, is intended or that a reasonable person would know is likely to harm one or more students either directly or indirectly by doing any of the following:

- A. substantially interfering with educational opportunities, benefits, or programs of one or more students;
- B. adversely affecting the ability of a student to participate in or benefit from the school district's educational programs or activities by placing the student in reasonable fear of physical harm or by causing substantial emotional distress;
- C. having an actual and substantial detrimental effect on a student's physical or mental health; and/or
- D. causing substantial disruption in, or substantial interference with,

the orderly operation of the school.

Bullying can be physical, verbal, psychological, or a combination of all three. Some examples of bullying are:

- A. Physical – hitting, kicking, spitting, pushing, pulling; taking and/or damaging personal belongings or extorting money, blocking or impeding student movement, unwelcome physical contact.
- B. Verbal – taunting, malicious teasing, insulting, name calling, making threats.
- C. Psychological – spreading rumors, manipulating social relationships, coercion, or engaging in social exclusion/shunning, extortion, or intimidation. This may occur in a number of different ways, including but not limited to notes, emails, social media postings, and graffiti.

"At school" is defined as in a classroom, elsewhere on school premises, on a school bus or other school related vehicle, or at a school-sponsored activity or event whether or not it is held on school premises. It also includes conduct using a telecommunications access device or telecommunications service provider that occurs off school premises if either owned by or under the control of the district.

"Harassment" includes, but is not limited to, any act which subjects an individual or group to unwanted, abusive behavior of a nonverbal, verbal, written or physical nature, often on the basis of age, race, religion, color, national origin, marital status or disability but may also include sexual orientation, physical characteristics (e.g., height, weight, complexion), cultural background, socioeconomic status, or geographic location (e.g., from rival school, different state, rural area, city, etc.).

"Intimidation/Menacing" includes, but is not limited to, any threat or act intended to place a person in fear of physical injury or offensive physical contact; to substantially damage or interfere with person's property; or to intentionally interfere with or block a person's movement without good reason.

"Staff" includes all school employees and Board members.

"Third parties" include, but are not limited to, coaches, school volunteers, parents, school visitors, service contractors, vendors, or others engaged in district business, and others not directly subject to school control at inter-district or intra-district athletic competitions or other school events.

SAFETY TIPLINE--SAFEROH

The safety and well-being of students and staff is a priority in Forest Hills School District. Through partnerships with the Ohio Department of Education and the Ohio Department of Public Safety, every school in the Forest Hills School District has been registered for SaferOH, a tip line that helps proactively ensure the safety and well-being of students.

[Back to Table of Contents](#)

Available for each FHSD school, the tip line allows students and adults to share information regarding threats to school or student safety, such as bullying, suicides or violence, with district and law enforcement officials. Callers can remain anonymous or share their contact information for possible follow-up. The line will accept both calls and texts 24 hours a day, 7 days a week.

Individuals can contact the tip line by calling or texting 844-SaferOH (844-723-3764). Calls or texts are received by analysts in the Ohio Homeland Security's Threat Assessment and Prevention Unit. The TAP Unit will then immediately forward information to district officials, local law enforcement agencies and others, as necessary, to ensure that the incident is investigated, action is taken and the outcome is tracked.

Through partnerships with the ODE and ODPS, the SaferOH tip line is provided to Forest Hills at no cost.

STUDENT DISCIPLINE

The Board of Education acknowledges that conduct is closely related to learning - an effective instructional program requires an orderly school environment and the effectiveness of the educational program is, in part, reflected in the behavior of students.

The Board believes that the best discipline is self-imposed and that students should learn to assume responsibility for their own behavior and the consequences of their actions. The Board does not tolerate violent, disruptive or inappropriate behavior by its students.

The Board shall require each student of this district to adhere to the Student Code of Conduct adopted by the Board and to submit to such disciplinary measures as are appropriately assigned for infraction of those rules. Such rules shall require that students:

- A. conform to reasonable standards of socially-acceptable behavior;
- B. respect the person and property of others;
- C. preserve the degree of order necessary to the educational program in which they are engaged;
- D. respect the rights of others;
- E. obey constituted authority and respond to those who hold that authority.

The Student Code of Conduct designates sanctions for the infractions of rules, excluding corporal punishment, which shall:

- A. relate in kind and degree to the infraction;
- B. help the student learn to take responsibility for his/her actions;
- C. be directed, where possible, to reduce the effects of any harm which may have been caused by the student's misconduct.

Students may be prohibited by authorized school personnel from participating in all or part of co-curricular and/or extra-curricular activities without further notice, hearing or appeal rights. A student who has been disorderly on a school bus may be suspended from transportation services consistent with Board policy and the Student Code of Conduct.

The Superintendent shall publish to all students and their parents the rules of this district regarding student conduct and the sanctions which may be imposed for breach of those rules.

The Superintendent shall inform the Board periodically of the methods of discipline imposed by this district and the incidence of student misconduct in such degree of specificity as shall be required by the Board.

The Superintendent, principals, and other administrators shall have the authority to assign discipline to students, subject to the Student Code of Conduct and, where required by law, to the student's due process right to notice, hearing, and appeal.

Teachers, school bus drivers, and other employees of this Board having authority over students may take such action as may be necessary to control the disorderly conduct of students in all situations and in all places where such students are within the jurisdiction of this Board and when such conduct interferes with the educational program of the schools or threatens the health and safety of others.

Discipline on Board vehicles shall be the responsibility of the driver on regular bus runs. When Board vehicles are used for field trips and other Board activities, the teacher, coach, advisor, or other Board employee shall be responsible for student discipline. If a student becomes a serious discipline problem on a vehicle, the Superintendent and/or his/her designee may suspend the transportation privileges of the student providing such suspension conforms with due process. The procedures for suspension are set forth in the Student Code of Conduct and Board Policy [5611](#) – Due Process Rights.

No student is to be detained after the close of the regular school day unless the student's parent has been contacted and informed that the student will be detained. If a parent cannot be contacted, the student should be detained on another day.

STUDENT CODE OF CONDUCT

Suspensions and expulsions may carry over into the next school year.

Any student who is expelled from school for more than 20 days or for any period of time if the expulsion will extend into the following semester or school year will be provided with information about services or programs offered by public and private agencies that work toward improving those aspects of the student's attitude and behavior that contributed to the incident that gave rise to the student's expulsion.

Due Process Rights

REMOVAL, SUSPENSION, EXPULSION, AND PERMANENT EXCLUSION OF STUDENTS 5610

The Board of Education recognizes that exclusion from the educational program of the schools, whether by emergency removal, out-of-school suspension, expulsion, or permanent exclusion, is the most severe sanction that can be imposed on a student in this District, and one that cannot be imposed without due process. However, the Board has zero tolerance of violent, disruptive or inappropriate behavior by its students.

No student is to be removed, suspended out-of-school, expelled and/or permanently excluded unless his/her behavior represents misconduct as specified in the Student Code of Conduct/Student Discipline Code approved by the Board. The Code shall also specify the procedures to be followed by school officials when implementing such discipline. In addition to the procedural safeguards and definitions set forth in this policy and the student/parent handbook, additional procedures and considerations shall apply to students identified as disabled under the IDEA, ADA, and/or Section 504 of the Rehabilitation Act of 1973. (See [Policy 5605](#) "Suspension/Expulsion of Disabled Students.")

Students may be subject to discipline for violation of the Student Code of Conduct/Student Discipline Code even if that conduct occurs on property not owned or controlled by the Board but where such conduct is connected to activities or incidents that have occurred on property owned or controlled by the Board, or conduct that, regardless of where it occurs, is directed at a District official or employee, or the property of such official or employee.

For purposes of this policy and the Student Code of Conduct/Student Discipline Code, the following shall apply:

- "Emergency removal" shall be the exclusion of a student who poses a continuing danger to District property or persons in the District or whose behavior presents an on-going threat of disrupting the educational process provided by the District. (See [Policy 5610.03](#) "Emergency Removal")

[Back to Table of Contents](#)

- "Suspension" shall be the temporary exclusion of a student by the Superintendent, principal, assistant principal, or any other administrator from the District's instructional program for a period not to exceed ten (10) school days. Suspension may shall not extend beyond the current school year, if at the time a suspension is imposed, fewer than ten (10) days remain in the school year.
- The Superintendent may instead require a student to participate in a community service program or another alternative consequence for a number of hours equal to the remaining part of the period of the suspension. The student shall be required to begin such community service program or alternative consequence during the first full week day of summer break.
 - In the event, the student fails to complete the required community service or the assigned alternative consequence, the Superintendent may determine the next course of action. Such course of action, however, shall not include requiring the student to serve the remaining time of the suspension at the beginning of the following year. The procedures for suspension are set forth in the Student Code of Conduct/Student Discipline Code and [Policy 5611](#) - Due Process Rights.
 - A student who is suspended may not be permitted to complete any classroom assignments missed because of the suspension.
- "Expulsion" shall be the exclusion of a student from the schools of this District for a period not to exceed the greater of eighty (80) school days or the number of school days remaining in a semester or term in which the incident that gives rise to the expulsion takes place or for one (1) year as specifically provided in this policy and the Student Code of Conduct/Student Discipline Code. Only the Superintendent may expel a student. The procedures for expulsion are set forth in the Student Code of Conduct/Student Discipline Code and Board [Policy 5611](#) "Due Process Rights".
- "Permanent exclusion" shall mean the student is banned forever from attending a public school in the State of Ohio. (See [Policy 5610.01](#))

Refer to BoardDocs [Policy 5610](#) for complete description

Discipline of Students with Disabilities

Students with disabilities are entitled to the rights and procedures afforded by the Individuals with Disabilities Education Improvement Act (I.D.E.I.A.), and, where applicable, the Americans with Disabilities Act (A.D.A.), and/or Section 504 of the Rehabilitation Act of 1973.

Suspension of Bus Riding/Transportation Privileges

When a student is being considered for suspension of bus riding/transportation privileges, the administrator in charge will notify the student of the reason. The student will be given an opportunity to address the basis for

[Back to Table of Contents](#)

the proposed suspension at an informal hearing. After that informal hearing, the principal [or assistant principal or other administrator] will decide whether or not to suspend his/her bus riding/transportation privileges for all or part of the school year.

If a student's bus riding/transportation privileges are suspended, s/he and his/her parents will be notified, in writing within one day, of the reason for and the length of the suspension.

SEARCH AND SEIZURE

The Board of Education recognizes that the privacy of students or their belongings may not be violated by unreasonable search and seizure and directs that no student be searched without reasonable suspicion or in an unreasonable manner.

The Board acknowledges the need for in-school storage of student possessions and shall provide storage places, including desks and lockers, for that purpose. Such spaces remain the property of the Board and, in accordance with law, may be the subject of random search. Where locks are provided for such places, students may lock them against incursion by other students, but in no such places shall students have such an expectation of privacy as to prevent examination by a school official.

school authorities are charged with the responsibility of safeguarding the safety and well-being of the students in their care. In the discharge of that responsibility, school authorities may search the person or property, including vehicles, of a student, with or without the student's consent, whenever they reasonably suspect that the search is required to discover evidence of a violation of law or of school rules. The extent of the search will be governed by the seriousness of the alleged infraction and the student's age.

This authorization to search shall also apply to all situations in which the student is under the jurisdiction of the Board.

Administrators are permitted to conduct a random search of any student's locker and its contents at any time, providing proper notice has been posted in the locker areas of each building.

Search of a student's person or intimate personal belongings shall be conducted by a person of the student's gender, in the presence of another staff member of the same gender, and only in exceptional circumstances when the health or safety of the student or of others is immediately threatened.

Administrators are authorized to arrange for the use of a breath-test instrument for the purpose of determining if a student has consumed an alcoholic beverage. It is not necessary for the test to determine blood-alcohol level, since the Board will not tolerate for alcohol use.

The Board also authorizes the use of canines, trained in detecting the presence of drugs or devices. This means of detection shall be used only to determine the presence of drugs in locker areas and other places on school property where such substances could be concealed. Canine detection must be conducted in collaboration with law enforcement authorities or with organizations certified in canine detection and is not to be used to search individual students unless a warrant has been obtained prior to the search.

Except as provided below, a request for the search of a student or a student's possessions will be directed to the principal who shall request the consent of the student to the inspection. Whenever possible, a search will be conducted by the principal in the presence of the student and another staff member. A search prompted by the

reasonable belief that health and safety are immediately threatened will be conducted with as much speed and dispatch as may be required to protect persons and property.

The principal shall be responsible for the prompt recording in writing of each student search, including the reasons for the search; information received that established the need for the search and the name of informant, if any; the persons present when the search was conducted; any substances or objects found; and the disposition made of them. The principal shall be responsible for the custody, control, and disposition of any illegal or dangerous substance or object taken from a student.

INTERROGATION OF STUDENTS

The school is committed to protecting students from harm that may be connected with the school environment and also recognizes its responsibility to cooperate with law enforcement and public child welfare agencies. While the school believes these agencies should conduct their investigations off school property if possible, investigations can take place at school in emergency situations or if the violation being investigated occurred on school property.

Before students are questioned as witnesses or suspects in an alleged criminal violation, the building administrator will attempt to contact a parent prior to questioning and shall remain in the room during questioning.

If a student is questioned as the subject of alleged child abuse or neglect, the building administrator will attempt to contact a parent prior to questioning, and s/he (or a designated guidance counselor) will remain in the room during questioning. If the agency investigating the alleged child abuse or neglect suspects the parent is the perpetrator, neither parent will be contacted prior to questioning, but the building administrator (or a designated guidance counselor) will remain in the room during questioning.

If law enforcement or children's services agency removes a student from school, the building administrator will notify a parent. Based on Board policy [5540](#)

STUDENT RIGHTS OF EXPRESSION

The school recognizes the right of students to express themselves. With the right of expression comes the responsibility to do so appropriately. Students may distribute or display, at appropriate times, non sponsored, noncommercial written material and petitions; buttons, badges, or other insignia; clothing, insignia, and banners; and audio and video materials. All items must meet school guidelines.

- A. Material cannot be displayed if it:
 1. is obscene to minors, libelous, or pervasively indecent or vulgar;
 2. advertises any product or service not permitted to minors by law;
 3. intends to be insulting or harassing;
 4. intends to incite fighting; or

[Back to Table of Contents](#)

5. presents a clear and present likelihood that, either because of its content or manner of distribution or display, it will cause or is likely to cause a material and substantial disruption of school or school activities, a violation of school regulations, or the commission of an unlawful act.
- B. Material may not be displayed or distributed during class periods, or between classes. Permission may be granted for display or distribution during lunch periods, and/or before or after school in designated locations, as long as exits are not blocked and there is proper access and egress to the building.

Students who are unsure whether materials they wish to display meet school guidelines may present them to the building administrator for approval 24 hours prior to display.

POSITIVE BEHAVIOR INTERVENTION AND SUPPORTS / LIMITED USE OF RESTRAINT AND SECLUSION [5630.01](#)

The Board is committed to the District-wide use of Positive Behavior Intervention and Supports ("PBIS") with students and the establishment of a school environment focused on the care, safety, and welfare of all students and staff members. Student Personnel shall work to prevent the need for the use of restraint and/or seclusion. PBIS shall serve as the foundation for the creation of a learning environment that promotes the use of evidence-based behavioral interventions, thus enhancing academic and social behavioral outcomes for all students. An emphasis shall be placed on promoting positive interventions and solutions to potential conflicts. PBIS emphasizes prevention of student behavior problems through the use of non-aversive techniques, which should greatly reduce, if not eliminate, the need to use restraint and/or seclusion.

Professional staff members and support staff determined appropriate by the Superintendent are permitted to physically restrain and/or seclude a student, but only when there is immediate risk of physical harm to the student and/or others, there is no other safe and effective intervention possible, and the physical restraint or seclusion is used in a manner that is age and developmentally appropriate and protects the safety of all children and adults at school.

All restraint and seclusion shall only be done in accordance with this Policy, which is based on the standards adopted by the State Board of Education regarding the use of student restraint and seclusion.

Training in methods of PBIS and the use of restraint and seclusion will be provided to all professional staff and support staff determined appropriate by the Superintendent. Training will be in accordance with the State's Standards. Only school staff who are trained in permissible seclusion and physical restraint measures shall use such techniques.

Every use of restraint and seclusion shall be documented and reported in accordance with this Policy.

[Back to Table of Contents](#)

The Board shall annually notify parents of this policy, and publish it on the District's website.

DEFINITIONS

Aversive behavioral interventions means an intervention that is intended to induce pain or discomfort to a student for the purpose of eliminating or reducing maladaptive behaviors, including such interventions as application of noxious, painful, and/or intrusive stimuli, including any form of noxious, painful or intrusive spray, inhalant, or taste.

Functional behavior assessment ("FBA") is a collaborative problem-solving process that is used to describe the "function" or purpose that is served by a student's behavior. Understanding the "function" that an impeding behavior serves for the student assists directly in designing educational programs and developing behavior plans with a high likelihood of success.

Mechanical restraint means any method of restricting a student's freedom of movement, physical activity, or normal use of the student's body, using an appliance or device manufactured for this purpose. PBIS encompasses a range of systemic and individualized positive strategies to reinforce desired behaviors, diminish recurrences of challenging behaviors, and teach appropriate behaviors to students.

In a timeout, the student is not physically restrained or prevented from leaving the area by physical barriers.

POSITIVE BEHAVIOR INTERVENTION AND SUPPORTS

Positive Behavior Intervention and Supports ("PBIS") creates structure in the environment using a non-aversive affective behavioral system to improve academic and behavior outcomes for all students.

The PBIS prevention-oriented framework or approach shall apply to all students and staff, and in all settings. PBIS shall include:

- A. school staff trained to identify conditions such as where, under what circumstances, with whom, and why specific inappropriate behavior may occur;

SECLUSION

Seclusion may be used only when a student's behavior poses an immediate risk of physical harm to the student or others and no other safe and effective intervention is possible. Seclusion may be used only as a last resort safety intervention that provides the student with an opportunity to regain control of his/her actions. Seclusion must be used in a manner that is age and developmentally appropriate, for the minimum amount of time necessary for the purpose of protecting the student and/or others from physical harm, and otherwise in compliance with this Policy and the Ohio Department of Education's ("ODE") corresponding policy.

[Back to Table of Contents](#)

Seclusion shall be implemented only by Student Personnel who have been trained in accordance with this Policy to protect the care, welfare, dignity and safety of the student.

Additional requirements for the use of seclusion:

If Student Personnel use seclusion, they must:

- B. use verbal strategies and research-based de-escalation techniques in an effort to help the student regain control as quickly as possible;
- C. remove the student from seclusion when the immediate risk of physical harm to the student and/or others has dissipated;
- D. assess the student for injury or psychological distress after the use of seclusion, and monitor the student as needed following the incident;
- E. conduct a debriefing including all involved staff to evaluate the trigger for the incident, staff response, and methods to address the student's behavioral needs; and
- F. complete all required reports and document their observations of the student.

Requirements for a room or area used for seclusion:

A room or area used for seclusion must provide for adequate space, lighting, ventilation, clear visibility, and the safety of the student.

Seclusion of preschool-age children is prohibited, except that a preschool-age child may be secluded from his or

her classmates, either in the classroom or in a safe, lighted, and well-ventilated space, for an amount of time that is brief in duration and appropriate to the child's age and development, if the child is always within sight and hearing of a preschool staff member.

RESTRAINT

There are different types of restraint, as defined above, including physical restraint, prone restraint, mechanical restraint, and chemical restraint. The use of restraint other than physical restraint is prohibited.

Physical restraint may be used only when the student's behavior poses an immediate risk of physical harm to the student and/or others and no other safe and/or effective intervention is possible. The physical restraint must be implemented in a manner that is age and developmentally appropriate, does not interfere with the student's ability to communicate in his/her primary language or mode of communication, and otherwise in compliance with this Policy and the ODE's corresponding policy.

Physical restraint shall be implemented only by student personnel who have been trained in accordance with this Policy to protect the care, welfare, dignity and safety of the student, except in the case of rare and unavoidable emergency situations when trained personnel are not immediately available.

FUNCTIONAL BEHAVIORAL ASSESSMENT AND BEHAVIOR INTERVENTION PLAN

TRAINING AND PROFESSIONAL DEVELOPMENT

The district shall provide training as follows:

District employees who receive such additional training must keep their training current in accordance with the requirements of the provider of the training.
- C. The Superintendent shall develop a plan to provide training to school personnel, as defined in this Policy, so that Positive Behavior Intervention and Supports are implemented on a district-wide basis. Implementation of PBIS throughout the district may be a multi-year process, with training taking place over several years.

The district shall maintain written or electronic documentation on training provided and lists of participants in each training.

Only individuals trained in accordance with this policy in the appropriate use of restraint and seclusion may use those techniques.

A copy of the written report shall be made available to the student's parent or guardian within twenty-four (24) hours of the use of restraint or seclusion. A copy of the written report shall also be maintained in the student's file.

All written documentation of the use of restraint or seclusion are educational records pursuant to the Family Educational Right to Privacy Act ("FERPA"), and district personnel are prohibited from releasing any personally identifiable information to anyone other than the parent, in accordance with FERPA's requirements.

The Superintendent shall develop a process for the collection of data regarding the use of restraint and seclusion.

The Superintendent shall report information concerning the use of restraint and seclusion annually to the Ohio Department of Education as requested by that agency, and shall make the District's records concerning restraint and seclusion available to the staff of the Ohio Department of Education upon request.

SECTION V - TRANSPORTATION

BUS TRANSPORTATION TO SCHOOL

The district provides transportation for all students who live further than one mile from school. The transportation schedule and routes are available by going to the Forest Hills School District website, www.foresthills.edu.

Students may only ride assigned buses and must board and depart from the bus at assigned bus stops. Students will not be permitted to ride unassigned buses for any reason other than an emergency, except as approved by the Principal.

The principal may approve a change in a student's regular assigned bus stop to address a special need. Parents should send a note to the principal stating the reason for the request and the duration of the requested change.

BUS CONDUCT

Students who are riding to and from school on district-provided transportation must follow all basic safety rules. This applies to school-owned buses as well as any contracted transportation. The driver may assign seating or direct students in any reasonable manner to maintain transportation safety. Students must comply with the following basic safety rules:

Prior to loading (on the road and at school)

Each student shall:

- be on time at the designated loading zone 5 minutes prior to scheduled stop;
- stay off the road at all times while walking to and waiting for school transportation;
- line up single file off the roadway to enter;
- wait until the school transportation is completely stopped before moving forward to enter;
- refrain from crossing a highway until the driver signals it is safe to cross;
- properly board and depart the vehicle;
- go immediately to a seat and be seated.

It is the parent's' responsibility to inform the bus driver when their child will not be aboard school transportation. Drivers will not wait for students who are not at their designated stops on time.

During the trip

Each student shall:

- remain seated while the school transportation is in motion;
- keep head, hands, arms, and legs inside the school transportation at all times;
- not push, shove or engage in scuffling;
- not litter in the school vehicle or throw anything in, into, or from the vehicle;
- keep books, packages, coats, and all other objects out of the aisle;
- be courteous to the driver and to other riders;

[Back to Table of Contents](#)

- not eat or play games, cards, etc.;
- not use nuisance devices (e.g., laser pointers) on the bus in a way that disrupts the safe transportation of students and/or endangers students or employees;
- not tamper with the school vehicle or any of its equipment (including, but not limited to emergency and/or safety equipment).

Exiting the school vehicle

Each student shall:

- remain seated until the vehicle has stopped;
- cross the road, when necessary, at least 10 feet in front of the vehicle, but only after the driver signals that it is safe;
- be alert to a possible danger signal from the driver.

The driver will not discharge students at places other than their regular stop at home or at school unless s/he has proper authorization from school officials.

VIDEOTAPES ON SCHOOL BUSES

The Board of Education has installed video cameras on school buses to monitor student behavior. If a student misbehaves on a bus and his/her actions are recorded on a videotape, the tape will be submitted to the Principal and may be used as evidence of misbehavior.

PENALTIES FOR INFRACTIONS

A student who misbehaves on the bus shall be disciplined in accordance with the Student Discipline Code and may lose the privilege of riding on the bus.

SELF-TRANSPORTATION TO SCHOOL

Driving to school is a privilege that can be revoked at any time. Students who are provided the opportunity to ride school transportation are encouraged to do so. Students and their parents assume full responsibility and liability for any transportation to and from school not officially provided by the school. The following rules shall apply:

- Students under age 18 must have written parent permission prior to driving to school.
- Students and their parents shall complete the Student Vehicle application.
- Students are required to obey the parking lot speed limit of 10 mph.
- The student must obtain a permit from the main office and pay a fee of **\$120.00** for the entire school year. If permit is bought during the school year, the fee will be prorated accordingly.
- If a student's parking permit is suspended, no fees will be refunded.
- Failure to comply with these rules will result in loss of privileges and/or disciplinary actions for a student.
- When the school provides transportation, students shall not drive to school-sponsored activities.

An approved student driver may not transport other students to a school-sponsored activity unless the parents of the approved student driver and the parents of the student(s) to be transported in the approved student driver's vehicle provide written authorization for the student to drive or to be transported and release the Board from liability.

All vehicles entering school property are subject to search and inspection.

STUDENT PARKING

Turpin High School

Parking areas accommodate Mercer Elementary staff, Turpin staff and Turpin students. Student permits are issued on a monthly basis during the school year. Applications must be completed and turned in to the main office. This fee provides for a security guard on duty for seven hours each school day and includes the cost of the permit. Seniors select assigned spaces in the gym and tennis court lots. Juniors and sophomores are issued permits for any space in the Bartels and Knights of Columbus lots. No student will be permitted to park in the visitor spaces.

All permits must be displayed daily from the rear view mirror. Parking violation stickers will be placed on students' cars that do not have a parking permit showing in their front window. Student vehicles that are parked on the main campus, or any other property pursuant to this permit may be searched when there is reasonable suspicion that the vehicle may contain items that violate the Student Code of Conduct and/or may be detrimental to the health, safety and welfare of the students.

Students may receive discipline consequences for any violation of parking rules and regulations including detentions, Saturday school, suspension and the revoking of parking privileges.

Anderson High School

Anderson High school has approximately 300 student parking spaces available to students during the school year. This will limit student drivers to seniors who have a valid driver's license. Seniors will be awarded parking permits first; remaining permits will be distributed to juniors then sophomores by a lottery system. Guidelines for the lottery will be posted if it becomes necessary. Students without a parking permit may appeal to the principal if a serious medical condition or extenuating circumstance necessitates driving to school.

To be considered for a parking permit, students must complete a parking permit application on-line. A valid vehicle registration form and valid driver's license must be shown to verify the car's license plate number. The permit can be used only by the student to whom it is issued in the operation of their vehicle. Permits are not transferable.

Students receiving permission to park in the student parking lots are issued a parking permit. The permit must be placed on the rear view mirror. Parking permits are \$125 per year for all locations. The fee is prorated each quarter. The 1st day of 2nd quarter the fee will drop to \$93.75, 1st day of 3rd quarter the fee will drop to \$62.5, and the 1st day of 4th quarter the fee will drop to \$31.25. Student parking is allowed on campus in three areas: the upper lot south of the staff parking area; the lower lot behind the building in those spaces not reserved for

[Back to Table of Contents](#)

the staff; and a limited number of spaces in the district administration building lot. Students who do not have a permit are not allowed to park on school property during the school day. Students who violate this rule will be subject to disciplinary action. Cars of students who violate this rule may be towed at the owner's expense. The student also agrees to park in an alternate location during special events (i.e. Grandparents Day, Grade level award programs, etc.).

Vehicles must be parked and locked upon arrival to school. Students are not permitted to return to their cars during the day unless they have a pass from an administrator. Students are not permitted to loiter in the parking lot at any time. See an administrator if you have any parking concerns.

Students are urged not to leave anything of value in their cars, since the school is not liable for any loss or damage. Stolen parking tags will not be replaced and students who purchased these permits will not be allowed to park on school property.

Local businesses and churches do not allow students to use their parking lots during the school day. Students who use these lots do so at their own risk; cars may be towed at the owner's expense.

Violation of any driving and/or parking regulation will result in disciplinary action. The student's parking permit may be revoked. Permits may also be revoked if the car is used to violate school rules and regulations (such as leaving school property during the school day), or if the student is excessively tardy and/or absent. The above regulations apply to motorcycles as well as automobiles.
