Double Bus Routes/COVID January 2022

January 10, 2022

Dear Forest Hills Elementary Parents,

Due to a shortage of bus drivers, it may be necessary during upcoming weeks to implement what is known as a “Double Route” Model.

The Double Route Model is not new to FHSD. This route model has been implemented in certain situations for elementary schools on a building-by-building basis. Should a Double Route Model be needed on the bus for your child’s ride home, you will receive an email from the District’s Transportation Supervisor, Richard Porter that will provide the new bus route, bus number, and an expected delay time, including the number of days the Double Route Model may be in place. You will also receive a contact number should you have questions.

I apologize for this inconvenience and appreciate your patience and understanding.

Thank you,

Scot Prebles
