EMPLOYEE ACCIDENT AND EXPOSURE REPORTING PROCEDURES

The following procedures are applicable to all **work-related** accidents, injuries, near misses and blood exposure incidents. Adherence to these instructions will facilitate your care and return to work. If you have any questions, talk to your supervisor.

Step 1: Your health is the first priority! Don't hesitate to seek professional care for a medical emergency.
A medical emergency is defined as: a) medical services required for the immediate diagnosis or treatment of a medical condition that if not immediately diagnosed or treated could lead to a serious physical or mental disability or death, or b) medical services that are immediately necessary to alleviate severe pain.

Step 2: IMMEDIATELY submit an Employee Accident/Exposure Incident Report and report the incident to your supervisor. Print an Injury Reporting Kit from the district website (www.foresthills.edu under Resource Center, click on forms, click on Workers' Compensation, click on injury reporting kit) and take it with you to the provider (doctor, urgent care, hospital, etc.).

To submit an employee incident report, go to the district website (www.foresthills.edu), click on the Resource Center, under Forms, click on Workers' Compensation, click on Report an Injury. Your user name is your first name and last name with no space between and your password is the last four digits of your Social Security number. Enter all information requested and follow the steps to submit your report.

For assistance, contact your supervisor. The Employee Accident/Exposure Incident Report should be completed by the injured/affected employee, however, if necessary, another employee can complete the report with the assistance of the affected employee.

Step 3: OPTIONS FOR MEDICAL CARE

When obtaining medical care, the employee MUST TELL THE PHYSICIAN it is a work-related injury.

FIRST VISIT

The first visit to any medical provider, whether an emergency or non-emergency, is covered for a work-related injury considered compensable by the Bureau of Workers' Compensation (BWC).

ALL OTHER VISITS

Although the first visit may be to any medical provider, whether an emergency or non-emergency, subsequent visits must be with a BWC Certified Provider specializing in work-related injuries, treatment and follow-up, including proper reporting, transitional work, physical therapy, and other occupational services. **It is incumbent upon the injured worker to verify that the provider is BWC Certified and is accepting new patients.**

To get the name of a BWC Certified Provider:
Call 1-800-OHIOBWC, Mon. - Fri., 7:30 AM to 5 PM OR
Log on to www.ohiobwc.com, click on Find a Provider and fill in the criteria.

NOTE: If medical services are provided, the injured worker must present a return to work notice to his/her supervisor upon returning to work.

ADDITIONAL REQUIREMENTS FOR BLOOD EXPOSURES

If you are exposed to the body fluids of another person, the following documents must be given to the medical provider (items 1 & 2 can be found in Public SchoolWorks in the Safety Document Library under Program Plans & Policies and Government Regulations):

1. A copy of the district Bloodborne Pathogens Exposure Control Plan.
2. A copy of the OSHA Bloodborne Pathogens regulations (29 CFR 1910.1030).
3. A copy of the completed Employee Accident/Exposure Report.
4. Results of the source individual's blood testing (if available).
5. All medical records applicable to treatment of the employee, including vaccination status.
6. For additional information regarding the procedures associated with an exposure to the body fluids of another person, the employee should read the district Bloodborne Pathogens Exposure Control Plan.

Instructions for Completing the Physician's Report of Work Ability

This form provides important information about the injured worker's ability to work.

- The treating physician must submit this form each time he/she sees the injured worker unless the injured worker has been awarded permanent and total disability, has returned to work without restrictions within seven days of the injury, or is being treated after the treating physician has released him/her to his/her former position without restrictions.
- Please complete this form and provide a copy to the injured worker during his/her office visit. Fax a copy to the appropriate managed care organization (MCO) or to the injured worker's employer if self-insured.
- This form or an equivalent physician-generated document may support a request for temporary total compensation. The equivalent document must contain, at a minimum, the data elements required on this form. If you have submitted previously equivalent data elements that remain the same, indicate the name of the report that reflects the injured worker's current condition, e.g., May 15, 2015, office note.
- You may attach additional medical documentation such as diagnostic test results and a treatment plan to this form.
- Failure to provide complete detailed information may delay or suspend compensation payments to the injured worker.

Instructions

MEDCO-14 submission section: You must select only one of the three choices by selecting the appropriate box. If you previously completed a MEDCO-14 and there are changes, you must indicate the changes in the appropriate section on the form, and select the yes box in that section. For all other sections, you would make no entry, and select the no box.

Employment/occupation section: Please indicate if you have reviewed a description of the injured worker's job held on the date of the injury. Please indicate all sources providing you a description of the injured worker's job. If you do not have a copy of the injured worker's job description, BWC or the MCO can help secure one.

Work status/Injured worker's capabilities section: Please complete this section as accurately and thoroughly as possible, as BWC will use this information to understand the injured worker's work status and help facilitate his/her appropriate and safe return to work either to his/her job held on the date of injury or an alternative job if he/she cannot return to the job held on the date of injury.

3A: Please indicate if the injured worker has any physical or health restrictions **related only to the allowed conditions in the claim.** If there are restrictions, please indicate if the restrictions are permanent or temporary. If there are no related restrictions you should check the release to work box. The date of the exam will be the release to work date.

3B: If there are restrictions **related only to the allowed conditions in the claim,** indicate whether or not the injured worker can return to **the full duties** of his/her job held on the date of injury. If you determine the injured worker cannot return to the full duties of his/her job held on the date of the injury, you must included the date for which you indicate the injured worker could not fully perform the duties of his/her job held on the date of the injury. You must also indicate an estimated date when you believe the injured worker should be able to fully perform the duties of the job held on the date of injury. **It is imperative that you follow all 3B instructions. This will facilitate appropriate processing of the injured worker's claim. Updates to dates in 3B requires 4A to be completed.**

3C: Although an injured worker may not be able to fully return to the job held on the date of injury, understanding the injured worker's capabilities will assist in identifying appropriate and safe work that an injured worker may be able to perform. If an injured worker may return to available and appropriate work with restrictions accommodated, please indicate the possible return to work date. Further, to facilitate BWC's efforts to safely return an injured worker to appropriate work, indicate which of the activities listed in this section, the injured worker can perform. The following definitions apply to the section on Lifting/carrying, Pushing/pulling and Activity with the percentages reflected as they relate to an eight-hour workday:

- Never – 0 percent;
- Occasionally – 1 percent to 33 percent, four to six repetitions per hour;
- Frequently – 34 percent to 66 percent, six to 12 repetitions per hour;
- Continuously – 67 percent to 100 percent, greater than 12 repetitions per hour.

Please note that if the "yes" box is checked in response to the question of whether the injured worker has functional restrictions based only on allowed psychological conditions the MEDCO-16 should be referenced as needed.

We encourage you, in the space provided, to provide any additional information you believe would benefit the injured worker's safety and care relative to any return to work considerations.
