DID YOU KNOW?

- 3 out of 4 women diagnosed with breast cancer have no family history.
- Breast cancer is the most common cancer among women worldwide.
- 1 in 5 women with lung cancer are non-smokers.
- Lung cancer is the leading cause of cancer-related deaths for both men and women.

Cancer can affect anyone, but early detection improves treatment success and survival rates.

Join Mercy Health experts to learn about cancer risk factors, health protection, and early screening options.
